Amendment 001 is being raised to provide minutes of the March 7, 2012 site visit and to incorporate the following information into solicitation W3537-11E019/A:

1. Site Visit minutes

Site visit occurred on March 7, 2012 at 10:00 am, Area Support Unit Calgary, Sir Arthur Currie Building 4225 Crowchild Trail SW, Calgary, Alberta.

Waters/Currie buildings:

The Contractor will be responsible to clear the snow in the parking lot area and sidewalks. Hauling of snow off site will be on as and required basis and will depend on the amount of snow on site. Lawn mowing is required inside the fenced area of this site and weeding is required on both side of the fenced area.

Museum of the Regiments:

This is the largest of all locations. Since this site is open to the public and has priority over the other sites, the Contractor must ensure that snow removal of this site be completed prior to 8:00am.

H.M.C.S. Tecumseh:

Snow removal of parking lot and sidewalks will be as per Statement of Work. Half of the parade square must be cleared of snow as parking is required on Wednesday evenings. This must be completed prior to 6:00pm that evening. The Contractor will be responsible to clear snow within the locked compound on an as and when required basis.

Mewata Armouries:

Snow removal is as per Statement of Work and lawn mowing is required at the front of the site, including up to the north fence area.

North East Armoury:

Weed control behind this building will be required on an as and required basis and is estimated that this will be done once per year. The Contractor will be responsible to clear snow within the locked compound on an as and when required basis.

The Contractor will have access to a key to get into each public parking area, but not the military compounds. Snow removal of parking lots are required when there is 10 cm (4 inches) of snow on the ground and when there is a trace amount of snow on the side walks. Snow removal must be completed before staff arrives on site for work. The Contractor will be responsible to clear snow within the locked compounds on an as and when required basis. Estimated usages listed under Annex "B" - Basis of Payment is for evaluation purposes only.

2. Questions and Answers

Q1. We use X22 Ice melt as required by city bylaws. Do you have a specific type of ice melt you would like us to use?

A1. The X22 Ice Melt is an acceptable product. Any different product would have to be approved by the Project Authority. The current product being used on site is Safety Melt (Stock #XDC 9900-20KG-B) by Acklands-Grainger.

3. Under Annex "B" (see item #7 & 8):**Delete:** In its entirety**Replace with:****A. FOR THE PERIOD FROM DATE OF ISSUANCE TO MARCH 31, 2014 INCLUSIVE:**
