**Amendment 002 to Solicitation W0125-13Q732/B - Tool Box Portable, Metal****Questions from bidders, with response back from Public Works and Government Services Canada:**

**Q1:** Would there be any pictures of one that is in use presently available?

**A1:** Yes, see attachment.

**Q2:** What are the features that are required for the covered workspace?

**A2:** Features must at minimum meet the Mandatory Technical Specifications, as per Annex "A" - Requirement.

**Q3:** Does the covered workspace have a special top such as wood?

**A3:** No

**Q4:** Is the covered workspace an open box once the lid is opened and folded away?

**A4:** It is an open box, but it has a cover to protect it from the elements, the open part is on the side, which opens to allow access so the interior can be used as a temporary working space.

**Q5:** Is there something special about the covered workspace, such as having tool trays?

**A5:** The covered work space does not require tool trays.

**Q6:** What types of drawers are required?

**A6:** Drawers must at minimum meet the Mandatory Technical Specifications, as per Annex "A" - Requirement.

**Q7:** How far do the drawers need to extend?

**A7:** The drawers must extend to reveal at least 90% of the drawer depth.

**Q8:** What kind of locks are required?

**A8:** There is no requirement in regard to lock type, however note that the Mandatory Technical Specifications, as per Annex "A" - Requirement, state that all locks should be keyed to use the same key, and a minimum of 2 keys per cart must be provided.

---

**Q9:** Do bidders need to provide a drawing of their design?

**A9:** Bidders may submit a drawing of their design as part of their bid submission. Bidders are required to submit with their bid full technical specifications literature which provides details demonstrating that the Tool Utility Cart meets or exceeds all of the requirements stated in Annex "A" -Requirement. In order for Canada to verify compliance, Bidders must cross reference their technical specification literature information for each Mandatory Technical Specification listed in Annex "A" - Requirement. The items not cross referenced in the literature **MUST** be supported by written narrative. Drawings are an acceptable form of technical specifications literature/written narrative.

**If your tender has already been submitted, and you wish to revise the tender, your revision must reach the bid receiving area before the closing date and time. The tender number and the closing date are to be shown on the first page of your revision.**
