***This amendment # 001 is raised to provide Canada's answers to Bidders questions to solicitation # W7702-135597/A as follows:***

***The following information shall henceforth form part of the solicitation and should be considered when preparing response submissions.***

- Q1**      Transmission accessories - will we need to configure these to measure solid, liquid or gas. Or all 3?
- A1**      The transmission accessory needs to include a gas cell and mounting hardware. If necessary, additional mounting hardware for liquid or solid sample cells (not the cells themselves) is also required.
- Q2**      Spectral library - what should we load into the spectral database? There are many modules available that can increase costs. Knowing the database requirements will keep costs down.
- A2**      There are numerous commercial libraries available from suppliers. Vapour phase, ATR and explosives libraries with sufficient number of spectra (as indicated in the SOW) are required.

**ALL OTHER TERMS AND CONDITIONS REMAIN THE SAME.**
