AMENDMENT 005

Delete 1.2.3, Evaluation of Price (Part 4 -Evaluation procedures and basis of selection) and replace as follows:

1.2.3 Evaluation of Price

For evaluation purposes only, the price of the bid will be determined as follows :

1.2.3.1 - Financial bid

In Annex B, the Bidder must provide:

- a firm all-inclusive price for all firm contract tasks (entire statement of work, with the exception of Tasks 1 to 5)
- firm all-inclusive hourly rates for work requiring task authorization (Tasks 6 to 9 of the statement of work only)

1.2.3.2 - Calculation of bid price

The bid price will be calculated as follows:

$$\begin{array}{r} \text{Price for all firm contract tasks} \\ + \quad \text{Price for Tasks 6 to 9 (with task authorization)} \\ \hline \text{Bid price} \end{array}$$

The price for Tasks 6 to 9 will be evaluated on the basis of the following approximate percentages of use:

- Project Manager : 5%
- Spectral Specialist : 36%
- System engineer : 28%
- Software developer : 31%

1.2.3.3 - Cost of labour for Tasks 6 to 9:

To establish labour costs, the effort available in terms of hours must be determined. The effort available for each resource category will be calculated as follows:

$$\text{Effort available} = \frac{[\text{Total anticipated available funding for Tasks 6 to 9}] \times [\text{Approximate percentage use}]}{[\text{Average hourly rate for the resource category}]}$$

The cost of labour for a given category (for a given bid) is then obtained by multiplying the effort available by the average hourly rate provided for the given category (for a given bid). **The rates provided for the fiscal year 11-12 will not be taken into account in the calculation since it is unlikely that a task is authorized during this fiscal year.**

Lastly, the cost of labour for Task 6 is calculated by adding the labour costs per category for a given bid.

For example:

- Anticipated funding for Tasks 6 to 9= \$476 190.47
- Percentage of use for the Project Manager = 5%
- If the average hourly rate for bid A = \$120 and that for bid B = \$130, then the average hourly rate for the resource category = \$125.

Therefore,

- Effort available $\$476\,190.47 \times 0.05 / \$125 = 190.48$ hours

and

- Labour costs for the Project Manager, bid A
= 190.48 hours x 120\$ = 22 857.60\$
- Labour costs for the Project Manager, bid B
= 190.48 hours x 130\$ = 24 762.40\$

1.2.3.4 - Sample calculations for the price of the two bids

The following table provides examples of calculations for the price of the two bids.

Sample calculations for the two bids - Price for Tasks 6 to 9 only

catégories de ressource	% of use	Rate A	Price for A	Rate B	Price for B
Project Manager	5%	120.00\$	22 857.60\$	130.00\$	24 762.40\$
Spectral Specialist	36%	118.00\$	169 988.44\$	120.00\$	172 869.60\$
System engineer	28%	120.00\$	139 130.40\$	110.00\$	127 536.20\$
Software developer	31%	95.00\$	143 833.80\$	100.00\$	151 404.00\$
TOTAL :			457 810.24\$		476 572.20\$

The "percentages of use" listed in the table are provided solely for the purpose of determining the estimated price for each bid. They represent approximate needs, provided in good faith, and should not be considered as a contractual guarantee.

These rates are provided as an example only and must not be interpreted as an indicator of the experience of the labour categories.

Sample calculations for the two bids - Estimated price for each bid

	Price for A	Price for B
Price for firm contract tasks as a whole	431 177.38\$	431 177.38\$
Price for Tasks 6 to 9 (with task authorizations)	457 810.24\$	476 572.20\$
TOTAL :	888 987.62\$	907 749.54\$
