AMENDMENT 001

1. Amend Item 3 of part 1.1.1 Mandatory Technical Criteria

1. Amend 1.1.1 Mandatory Technical Criteria as follows:

1.1 Technical Evaluation

1.1.1 Mandatory Technical Criteria

The Bidder must indicate, for each mandatory technical criterion, whether the proposed products comply or not, by checking the relevant box. The Bidder must clearly demonstrate how the proposed products comply to each criterion. Simply stating that the criteria is met, is not sufficient. Where it is necessary to refer to other documentation that is included in the Bid, Bidders should include the precise location of the reference material including the title of the document, and the page and paragraph numbers. The bidder must provide an answer for each criterion. The bidder must provide enough details to permit a complete evaluation.

Although bidders must propose products meeting all the specifications and components outlined in Annex A at the bid closing date, bids will be evaluated on the following criteria:

Item	Mandatory Technical Criteria	Met	Not met	Reference to additional substantiating materials included in bid
1	The boiler will have to have a minimum capacity of 926 liters with a minimal capacity of heat oil transfer of 132 liters.			
2	A 6HP diesel engine will drive a mechanic agitator.			
3	The heating of the boiler will be done with a 410,000 Btu liquid propane diesel burners that will heat during the working sessions. An automatic control of the sealing material temperature is required to avoid and prevent fire.			
4	The body of the boiler must be in thick steel covered with epoxy paint for intense service.			
5	A mechanical agitator will allow a uniform mix of the sealing material.			
6	The gravity pouring of the liquid will be dispensed through a distributor valve of a minimum of 3 inches.			
7	The trailer will be built in an iron U- form for heavy-duty use. All the joints must be sealed. Axles, in pairs, must be made for

	intense service and of industrial quality. A «pintle eye» coupling ring and security chains will be supplied with the machine.			
8	The trailer will be equipped with the required brakes and lights and in accordance with highway standards.			
9	The trailer must be compact and conceived for the asphalt boiler.			
10	The equipment must be painted in epoxy «international orange» color. For reference purposes, Sico 585-762, Dupont #3216 or other equivalent color.			

***All other terms and conditions remain the same.
