**This amendment is raised to answer the following questions that was submitted:**

**Question 1.**

In Section 6 (page 17) of the request for service (RSA) noted above, there is a list of fields of expertise that might be included in subsequent requests for proposals. The list on Page 17 includes water quantity; snow, ground, ice, and permafrost, and air quality; however, in Appendix 1 to Annex A (Page 20 to 25), there are no minimum qualifications specified for these areas of expertise. Should we included people with specific experience in these areas under "environmental engineers" or should be include new categories (e.g., permafrost engineer, geotechnical engineer, water resources engineer, etc.)?

**Answer 1.**

Each proposed resource will be evaluated against the minimum qualification as outlined in Appendix 1 to Annex A. It is the Supplier's responsibility to provide the necessary information to demonstrate their proposed

resource(s) meets the minimum qualifications of Appendix 1 to Annex A. Any new resource categories will not be considered in the evaluation of the Request for Supply Arrangement.

Once a Supply Arrangement(s) is in place, bids will be solicited for specific requirements including fields of expertise and will request a technical/financial bid from a SA Holders offering services for the required resource(s).

**Question 2.**

Our company is submitting a proposal as lead consultant. In addition to our submission, we are also included as a sub-consultant on another company's proposal. Is it permissible for us to be a lead on one submission and a sub-consultant on another?

**Answer 2:**

Yes, a company can be a Supply Arrangement Holder and also be a sub-contractor under another Supply Arrangement for the same requirement.

**Question 3.**

Please provide a list of the name of all certifications (and certification forms) required for the SOA with PWGSC for Solicitation No EW479 120844/C; also please provide a web link where all of these certifications can be accessed directly.
