This amendment is to answer questions that were asked.

Q4. As a single resource (i.e. myself) incorporated company (registered with PS On-Line), I believe I meet the mandatory criteria as an Auditor under Stream 6 – Financial Accounting Services but MT2 seems to imply that you need at least 5 resources to bid on any stream. It also contradicts the mandatory requirements for an Auditor under Stream 6 by requiring that each resource have one of the certifications indicated i.e. CA, CGA, etc.

A4. This procurement vehicle is for the delivery of various professional audit support services required on an “as and when requested” basis by Federal Departments, Crown Corporations and Agencies, in support of their various programs, initiatives, operations and projects. The requirement to have five internal resources is mandatory to ensure that the Supplier is an established firm with the appropriate work processes, including quality assurance processes, to perform services as described in the various Streams. Potential suppliers are allowed to form a Joint Venture to meet this requirement.

Q5. For stream 3, the mandatory requirements require certification as either a Certified Information Systems Manager (CISA), or Certified Information Security Manager (CISM), or Certified Information Systems Security Professional (CISSP). The qualification requirements for this specialty certification from the Canadian Institute of Chartered Accountants would appear to be similar to the above noted certifications. Would you consider including a CA-IT certification as one of the allowable certifications under Stream 3?

A5. To be eligible for Workstream 3, resources must possess either a Professional Designation in any one of the following: CA, or CMA, or CGA, or CIA; OR A degree/diploma from a recognized university or college, which is relevant to the work-stream; AND a CISA, or CISM, or CISSP
