1. Amendment issued to extend the closing date of the solicitation as follows:
From/Original Closing Date: 02 MARCH 2012. **To/New Closing Date : 05 March 2012.**

2. Amendment issued to add the following specification's clarification/additional information:

QUESTION: There is no mention of a steel frame and running gear, and there is mention of a kneewall and concrete slab by others. Does this mean you want the unit just built from the wooden floor up, delivered on a float, and lifted in place?

ANSWER: The statement of requirements for this project does reference, at several points, the fact that we are looking for a storage trailer, which would naturally imply that running gear is required. Having said this, the attached drawing does not reference running gear, nor does the statement of requirements specifically reference running gear or a steel frame. As per the statement of requirements, we require

"The delivery of one (1) 12.20M long x 3.05M wide temporary storage trailer to 9 Wing Gander, Gander, NL, and temporary placement on-site as determined by Engineer. Placement of trailer on site to include the supply of all materials and labour necessary to secure trailer in-place, to prevent any potential movement and/or damages from adverse weather conditions and site/local environmental conditions."

If a bidder(s) is able meet these requirements, regardless if the structure is on wheels, has a steel frame and/or running gear, we will accept the product. As per/in accordance with the overall statement of requirements.

ALL OTHER PREVIOUS TERMS AND CONDITIONS REMAIN THE SAME
