PROVISIONS OF THIRD LINE MAINTENANCE FOR MISC FUEL CELLS RFP -
W8485-100400/B

Amendment 2/ Questions and Answers

This amendment is raised to answer the following question.

Question 1

I'm going through the documentation for the re-issued RFP for the Third Line Maintenance items and I'm not clear about completing the table for the Price Per Point Evaluation, found in Appendix 3. Are the stated Evaluation Amounts (i.e. Hours, Cubic Meters, Annual Material Costs, etc.) just examples of these values and the Bidders are required to project these amounts or are these pre-determined by PWGSC? It's not clear as it was in the previous version where it stated clearly that the Table was a "Sample Calculation Template".

Answer 1

Though Bidders are provided forecast data in Appendix 1 to Annex A however, the category evaluation hours, materiel, and subcontract figures provided for Year 1, 2 and 3 of the Price Per Point Evaluation Table found in Appendix 3 to Annex D are sample figures provided for calculation and evaluation purposes only, as stated in the NOTE on page 4 of Appendix 3 to Annex D. Even though these are sample figures, they will be used to calculate the overall lowest cost per point.

The resulting Contract shall not oblige Canada to authorize or order all or any of the services specified, or to spend the total estimated cost or any part thereof. Canada's liability under the resulting Contract shall be limited to that which arises from work requests properly issued against the resulting Contract.

This revised evaluation plan has been developed to relieve the requirement to acquire CFTO's for the bidding process.
