Solicitation Amendment #02

I. The following questions were posed by the industry:

Q1: As per our earlier conversation in regards to the blast cabinet for Greenwood. I am writing to request clarification on item 5 from annex C, it lists a 70cfm air dryer but doesn't specify what type, ie refrigerated, desiccant, deliquescent or a simple moisture trap. If a powered system is requested what voltage is required? Could you please provide me with some clarification on this point?

A1: It is a desiccant type air dryer; it is not a filter air dryer. Voltage requirements are addressed in Items 2 and 4.

Q2: Please advise if the following specifications would be acceptable:

Annex "A" Requirement

Section 2: Cabinet

- Carbon Steel Construction in 14 Gauge
- Total of 4 Ninety Watt Flood lights (2 of which are on independent light switch)
- Viewing window is 14" by 22"

Section 3: Reclaimer

- 20" Diameter

Section 4: Dust Collector

- Carbon Steel Construction in 14 Gauge

A2: None of the above-noted specifications are as per our requirements and would not be acceptable.

Solicitation No. - N° de l'invitation
