**This amendment 003 is raised to answer questions for the above mentioned solicitation as follows:**

**QUESTIONS AND ANSWERS:**

**Q15.** Thank you for your prompt response to my inquiries via Am. 002. Having reviewed your responses, I have some follow-up questions:

Your A14. states, "The file format must be under MicroSoft Office version 2003 or older and it must be either on CD or DVD". You do not, however mention a specific program in which technical information can be submitted. Further, most of our technical data, including test reports are in Abohe Acrobat PDF format.

Would it be acceptable to submit technical response data (soft copy) in PDF format?

**A15.** Yes, technical information can be submitted in PDF format.

**Q16.** We have received the answers to the questions but require clarification on Question #10. In the answer it states" The decision was made to procure a monolithic base panel not a stackable panel; no change to Annex A-2 Purchase Description, section 5.6"

Does this mean that only a 36"+/- base panel with Add-ons modules will be accepted by PWGSC?

Or would a monolithic base panel of 50"+/- with an up-mount bins be acceptable to PWGSC?

**A16.** No, not only a 36" +/- base panel with add-on modules will be accepted by PWGSC. No, a monolithic base panel of 50"+/- with an up-mount bin would not be acceptable to PWGSC.

**Q17.** On the 7th floor drawing we have found 4 work stations (7057 C and D, 7021 B and C) which appear to have freestanding tables 1676mm x 610 mm. Please confirm if these are to be included.

**A17.** No, these freestanding tables are not to be included.

**Q18.** Can the power pole be located anywhere along the spine wall?

**A18.** No, please locate the power poles as indicated on the furniture plans.

---

**Q19.** Will you accept our soft copy submission as an Adobe Acrobat PDF version 7?

**A19.** Yes, we will accept the soft copy submission as an Adobe Acrobat PDF version 7.

**Q20.** In review of the CAD drawings on the ground floor we have thawed out all the layers and in one layer it shows the right side of the floor with the lines through it that says it is not in contract, can you clarify this.

**A20.** Please ignore the frozen hatch lines and the not in contract note.

**Q21.** I have questions regarding overhead bins for the CRA BID.

Where overhead bins are mounted off-modular between two panels, can they be shifted slightly to mount on appropriate adjacent panels with in the workstation?

Can a different style of overhead bins be used where off-modularity is required?

Is it a requirement for all overheads to be mounted on an off-modular configuration?

**A21.** Yes, overhead bins can be shifted slightly to mount on appropriate adjacent panels within the workstation.

No, a different style of overhead bins cannot be used where off-modularity is required as all workstations must be uniform.

No, it is not a requirement for all overhead bins to be mounted on an off-modular configuration.

**All other terms and conditions of the solicitation remain the same.**
