Question 1:

1) With respect to Mandatory Technical Criteria 1.1 (MT1.1), could the Crown clarify if a firm is able to bid for a specific risk management process service within a stream? For example, could a firm submit a completed project reference only for Procurement process services and still qualify under MT1.1?

Answer 1:

Yes, a firm can bid for a specific risk management process service (i.e. a category) within a stream and still qualify under MT1.1.

For example, to qualify for Stream 1 - Category 1: Procurement, a bidder must provide:

- a) A description of 1 completed project for Risk Management Process Services - Procurement that demonstrates its experience as defined in Annex A - Statement of Work, over the past 5 years from the RFSA closing date;
- b) Start and end dates (month/year);
- c) Client organization name;
- d) Client representative name; and
- e) Client representative telephone number and e-mail address.

Therefore, a bidder must provide this information for each category in which it wants to be considered.

Question 2:

2) With respect to Mandatory Technical Criteria 2.1 (MT2.1), could the Crown clarify if the \$250,000 of risk consulting fees are required to have been billed annually or if it is a cumulative sum over the past five years?

Answer 2:

A minimum cumulative sum of \$250,000.00 in risk consulting fees over a five year period (from the RFSA closing date) is required to meet Mandatory Technical Criteria 2.1 (MT2.1).

Question 3:

3) Could the Crown clarify if specific staffing resources need to be proposed along with the firm's bid? (Section 8 in Appendix 1 to Annex A and Section 3 in Appendix 2 to Annex A).

Answer 3:

Specific staffing resources do not need to be proposed in the bid.

Question 4:

4) On page 5 of the RFSA, it states, "In order to pre-qualify, Suppliers may submit an arrangement for each category and/or stream for which it wants to be considered."

However, under Attachment 1 to Part 4, MT1.1, it states, "In order to demonstrate compliance, the Supplier must submit the following information for each category and/or stream that it wants to be considered for a Supply Arrangement."

Please confirm that we can submit the necessary requirements under one technical proposal for as many streams as we would like to bid on, and be deemed compliant.

Answer 4:

A bidder is able to submit the necessary requirements under one technical proposal but must provide a separate project to be evaluated for each category in which it wants to be considered.

For example, if a bidder would like to qualify for Stream 1 - Category 2: Real Property Management and Stream 2 - Category 1: Insurance and Risk Consulting Services, a project demonstrating Real Property Management experience and a project demonstrating Insurance and Risk Consulting experience (containing all information as outlined in MT1) must be submitted.

Question 5:

5) Would you like a separate technical proposal for each category within Stream 1 or would one technical proposal suffice?

Answer 5:

Please see response to question 4.

ALL OTHER TERMS AND CONDITIONS REMAIN THE SAME.
