This Revision 002 is raised to provide question and answer as follows:

Question

In August of 2000, Solicitation No. W8486-00FJ01/A (Military Vehicle Corrosion Control) was issued. At that time a detailed list was included (see attached scanned copy). With this list we were able to accurately bid on the following HLVW, MLVW and LSVW units.

We need to properly allocate labor time of applicators, resources and product use - depending on the unit(s) - and without a list it is almost impossible to do so.

In order to preclude any advantage that previous applicators may have - regarding their knowledge of types of vehicles and product requirements - I feel a list is necessary.

It may in fact give the previously awarded bidder an 'upper hand' in this current bid submission process - as they will be familiar with the DND fleet from previous years of application.

Answer

That is the list of bases from the previous contract with an approximate numbers of trucks. The new contract will encompass a vastly larger fleet: MLVW, HLVW, Trailers (all) , LSVW, MSVS, HESV, all civilian trailers that have been deemed the same as the military, the Technical Authority in the process of assembling the list of ECC's (Equipment Configuration Code) and so far I have 130 different ECCs on the list as B fleet vehicles / trailers, basically all wheeled vehicles in the CF. So as you can see it is very hard to to say how many are at each location, although the list of bases will be very close to the actual (we may find one or two more reserve units).

ALL OTHER TERMS AND CONDITIONS REMAIN UNCHANGED.
