1.2 Summary

Objective :

Add additional features to a tool for responding to cyber incidents, in order to meet the needs of the Department of National Defence (DND) R&D in this area.

Background / History :

Considerable effort is currently being put into developing a process for responding to cyber incidents for DND. The development of this process requires a cyber incident integrated response tool to evaluate the feasibility of several proposed approaches.

In recent years, tools for responding to cyber incidents have reached the marketplace. A team of scientists from Defence R&D Canada (DRDC) have evaluated several such tools. They concluded that no existing tool has all the capabilities necessary to support the development work for the process.

The development from scratch of an integrated tool to respond to cyber incidents with all the desired capabilities would require too much effort for the scope of the project. It is therefore proposed to extend the capabilities of an existing tool for responding to cyber incidents by adding additional features.

The organization for which the services are to be rendered is the Department of National Defence (the «**client**»).

The period of the Contract is from the date of contract award to March 31, 2016, inclusive. The Contractor grants to Canada the irrevocable option to extend the term of the Contract by up to 4 additional 1-year periods under the same terms and conditions.

The estimated value of the contract is \$900,000.00, plus GST/HST, for the portion of the work done on request via task authorizations during the initial contract period (from the start date of the contract until March 31, 2016, inclusive).

The contract will also include a sum (not disclosed) for the purchase of a maximum of 100,000 additional and optional licenses for the software that include maintenance and support. The purchase of licenses is planned for the period between April 1, 2016, to March 31, 2020.

Pursuant to section 01 of Standard Instructions 2003, Bidders must submit a complete list of names of all individuals who are currently directors of the Bidder. Furthermore, as determined by the Special Investigations Directorate, Departmental Oversight Branch, each individual named on the list may be requested to complete a Consent to a Criminal Record Verification form.

The requirement is subject to the provisions of the Agreement on Internal Trade (AIT).

1.3 Debriefings

After contract award, bidders may request a debriefing on the results of the bid solicitation process. Bidders should make the request to the Contracting Authority within 15 working days of receipt of the results of the bid solicitation process. The debriefing may be provided in writing, by telephone or in person.

PART 2 - BIDDER INSTRUCTIONS

2.1 Standard Instructions, Clauses and Conditions

- (a) All instructions, clauses and conditions identified in the bid solicitation by number, date and title are set out in the Standard Acquisition Clauses and Conditions Manual (<https://buyandsell.gc.ca/policy-and-guidelines/standard-acquisition-clauses-and-conditions-manual>) issued by Public Works and Government Services Canada.
- (b) Bidders who submit a bid agree to be bound by the instructions, clauses and conditions of the bid solicitation and accept the clauses and conditions of the resulting contract.
- (c) The 2003 (2012-07-11) *Standard Instructions - Goods or Services - Competitive Requirements* are incorporated by reference into and form part of the bid solicitation.
- (d) The text under Subsection 4 of Section 01 – Code of Conduct and Certifications of 2003 referenced above is replaced by:

“Bidders should provide, with their bid or promptly thereafter, a complete list of names of all individuals who are currently directors of the Bidder. If such a list has not been received by the time the evaluation of bids is completed, Canada will inform the Bidder of a time frame within which to provide the information. Failure to provide such a list within the required time frame will render the bid non-responsive. Bidders must always submit the list of directors before contract award.

Canada may, at any time, request that a Bidder provide properly completed and Signed Consent Forms (*Consent to a Criminal Record Verification form - PWGSC-TPSGC 229*) for any or all individuals named in the aforementioned list within a specified delay. Failure to provide such Consent Forms within the delay will result in the bid being declared non-responsive.”

The text under Subsection 5 of Section 01 – Code of Conduct and Certifications of 2003 referenced above is replaced by:

“The Bidder must diligently maintain the list up-to-date by informing Canada in writing of any change occurring during the validity period of the bid, and must also provide Canada, when requested, with the corresponding Consent Forms. The Bidder will also be required to diligently maintain the list and when requested, provide Consent Forms during the period of any contract arising from this bid solicitation.”

2.2 Submission of Bids

- (a) Bids must be submitted only to Public Works and Government Services Canada Bid Receiving Unit by the date, time and place indicated on page 1 of the bid solicitation.
- (b) Due to the nature of the bid solicitation, bids transmitted by facsimile to Public Works and Government Services Canada will not be accepted.

2.3 Enquiries - Bid Solicitation

- (a) All enquiries must be submitted in writing to the Contracting Authority, preferably via email at Gabriel.Piras@tpsgc-pwgsc.gc.ca, **no later than five (5) calendar days** before the bid closing date. Enquiries received after that time may not be answered.
- (b) Bidders should reference as accurately as possible the numbered item of the bid solicitation to which the enquiry relates. Care should be taken by bidders to explain each question in sufficient detail in order to enable Canada to provide an accurate answer.

2.4 Applicable Laws

- (a) Any resulting contract must be interpreted and governed, and the relations between the parties determined, by the laws in force in Quebec.
- (b) A bidder may, at its discretion, substitute the applicable laws of a Canadian province or territory of their choice without affecting the validity of its bid, by deleting the name of the Canadian province or territory specified and inserting the name of the Canadian province or territory of its choice. If no change is made, it acknowledges that the applicable laws specified are acceptable to the Bidder.

PART 3 - BID PREPARATION INSTRUCTIONS

3.1 Bid Preparation Instructions

- (a) **Copies of Bid:** Canada requests that bidders provide their bid in separately bound sections as follows:

- (i) Section I: Technical Bid (**5** hard copies)
- (ii) Section II: Financial Bid (**2** hard copies)
- (iii) Section III: Certifications (**One** hard copy)

Prices must appear in the financial bid only. No prices must be indicated in any other section of the bid.

- (b) **Format for Bid:** Canada requests that bidders follow the format instructions described below in the preparation of their bid:

- (i) use 8.5 x 11 inch (216 mm x 279 mm) paper;
- (ii) use a numbering system that corresponds to the bid solicitation;
- (iii) include a title page at the front of each volume of the bid that includes the title, date, bid solicitation number, bidder's name and address and contact information of its representative; and
- (iv) include a table of contents.

- (c) **Canada's Policy on Green Procurement :** In April 2006, Canada issued a policy directing federal departments and agencies to take the necessary steps to incorporate environmental considerations into the procurement process. See the Policy on Green Procurement (<http://www.tpsgc-pwgsc.gc.ca/ecologisation-greening/achats-procurement/politique-policy-eng.html>). To assist Canada in reaching its objectives, bidders are encouraged to:

- (i) use paper containing fibre certified as originating from a sustainably-managed forest and/or containing a minimum of 30% recycled content; and
- (ii) use an environmentally-preferable format including black and white printing instead of colour printing, printing double sided/duplex, and using staples or clips instead of cerlox, duotangs or binders.

- (d) **Submission of Only One Bid from a Bidding Group:**

- (i) The submission of more than one bid from members of the same bidding group is not permitted in response to this bid solicitation. If members of a bidding group participate in more than one bid, Canada will choose in its discretion which bid to consider.
- (ii) For the purposes of this article, "**bidding group**" means all entities (whether those entities include one or more natural persons, corporations, partnerships, limited liability partnerships, etc.) that are related to one another. Regardless of the jurisdiction where any of the entities concerned is incorporated or otherwise formed as a matter of law, entities are considered "**related**" for the purposes of this bid solicitation if:
 - (A) they are the same legal entity (i.e., the same natural person, corporation, partnership, limited liability partnership, etc.);
 - (B) they are "related persons" or "affiliated persons" according to the *Canada Income Tax Act*,

- (C) the entities have now or in the two years before bid closing had a fiduciary relationship with one another (either as a result of an agency arrangement or any other form of fiduciary relationship); or
- (D) the entities otherwise do not deal with one another at arm's length, or each of them does not deal at arm's length with the same third party.

3.2 Section I: Technical Bid

- (a) In their technical bid, bidders must demonstrate their understanding of the requirements contained in the bid solicitation and explain how they will meet these requirements. Bidders should demonstrate their capability in a thorough, concise and clear manner for carrying out the work. The technical bid should address clearly and in sufficient depth the points that are subject to the evaluation criteria against which the bid will be evaluated. Simply repeating the statement contained in the bid solicitation is not sufficient. In order to facilitate the evaluation of the bid, Canada requests that bidders address and present topics in the order of the evaluation criteria under the same headings. To avoid duplication, bidders may refer to different sections of their bids by identifying the specific paragraph and page number where the subject topic has already been addressed.
- (b) The technical bid consists of the following:
 - (i) **Résumés for Proposed Resources:** The technical bid must include résumés for the proposed resources. Résumés must demonstrate that each proposed individual meets the qualification requirements (including any educational requirements, work experience requirements, and professional designation or membership requirements) described in Section 4.2, Part 4, of this document. With respect to résumés and resources:
 - (A) Proposed resources may be employees of the Bidder or employees of a subcontractor, or these individuals may be independent contractors to whom the Bidder would subcontract a portion of the Work.
 - (B) For any requirements that specify a particular time period (e.g., 2 years) of work experience, PWGSC will disregard any information about experience if the individual's résumé does not include the relevant dates for the experience claimed (i.e., the start date and end date). Canada will evaluate only the duration that the resource actually worked on a project or projects (from his or her start date to end date), instead of the overall start and end date of a project or a combination of projects in which a resource has participated.
 - (C) For work experience to be considered by PWGSC, the résumé must not simply indicate the title of the individual's position, but must demonstrate that the resource has the required work experience by explaining the responsibilities and work performed by the individual while in that position. In situations in which a proposed resource worked at the same time on more than one project, only one project will be counted toward any requirements that relate to the individual's length of experience.
 - (ii) All the other information required to demonstrate its conformity with the Mandatory and Point Rated Technical Criteria described in Section 4.2, Part 4, of this document.

3.3 Section II: Financial Bid

- (a) **Pricing:** Bidders must submit their financial bid in accordance with the Basis of Payment in Annex B. More precisely, Bidders must provide all of the information that is requested in Annex

B. The total amount of Goods and Services Tax or Harmonized Sales Tax must be shown separately, if applicable.

- (b) **Time Travel and Travel and Living Expenses :** There will be no travel time or travel and living expenses payable for services rendered within 40 kilometres from the client facilities located at 2459, boulevard Pie-XI Nord, Québec, Québec, G3J 1X5, Canada. This cost must be included in the firm, all-inclusive hourly rates.
- (c) **Variation in Professional Services Resource Rates from Year to Year:** If the Bidder proposes different rates for resources for different years of the resulting contract, including option years, the difference from one year to the following year must be no more than **5%**.
- (d) **Blank Prices:** Bidders are requested to insert "\$0.00" for any item for which it does not intend to charge or for items that are already included in other prices set out in the tables. If the Bidder leaves any price blank, Canada will treat the price as "\$0.00" for evaluation purposes and may request that the Bidder confirm that the price is, in fact, \$0.00. No bidder will be permitted to add or change a price as part of this confirmation. Any bidder who does not confirm that the price for a blank item is \$0.00 will be declared non-responsive.
- (e) **SACC Manual Clauses:**
 - (i) C3011T (2010-01-11), Exchange Rate Fluctuation

3.4 Section III: Certifications

Bidders must submit the certifications required under Part 4.

PART 4 - EVALUATION PROCEDURES AND BASIS OF SELECTION

4.1 Evaluation Procedures

- (a) Bids will be assessed in accordance with the entire requirement of the bid solicitation including the evaluation criteria.
- (b) An evaluation team composed of representatives of Canada will evaluate the bids.
- (c) In addition to any other time periods established in the bid solicitation:
 - (i) **Requests for Clarifications:** If Canada seeks clarification or verification from the Bidder about its bid, the Bidder will have 2 working days (or a longer period if specified in writing by the Contracting Authority) to provide the necessary information to Canada. Failure to meet this deadline will result in the bid being declared non-responsive.
 - (ii) **Extension of Time:** If additional time is required by the Bidder, the Contracting Authority may grant an extension in his or her sole discretion.

4.2 Technical Evaluation

(a) Mandatory Technical Criteria :

- (i) Each bid will be reviewed for compliance with the mandatory requirements of the bid solicitation. Any element of the bid solicitation that are identified specifically with the words "must" or "mandatory" is a mandatory requirement. Bids that do not comply with each and every mandatory requirement will be declared non-responsive and be disqualified.
- (ii) The mandatory requirements are as follows:

Mandatory Criterion	Description

12	The supplier must be able to provide the services of an intermediate developer with a minimum of 24 months of experience in the development and/or integration of Windows malware detection techniques. (As specified at Section 3.2, Part 4, of this document, the Bidder must provide the curriculum vitae of each proposed resource.)
13	The supplier must be able to provide the services of a project manager. (As specified at Section 3.2, Part 4, of this document, the Bidder must provide the curriculum vitae of each proposed resource.)

(b) Point-Rated Technical Criteria:

- (i) Each bid will be rated by assigning a score to the rated requirements, which are identified in the bid solicitation by the word "rated" or by reference to a score. Bidders who fail to submit complete bids with all the information requested by this bid solicitation will be rated accordingly.
- (ii) The rated requirements are as follows:

Existing Cyber Incident Response Tool Capabilities and Performance		
Criterion	Evaluation Scale	Score
1.1) Computer monitoring and surveillance The tool should be able to collect data about events in a preventive fashion, that is before an incident occurs. The events of interest are: process creation, network communication and logins.	10 pts: The tool collects data on all 3 types of events. 5 pts: The tool collects data on 1-2 types of events. 0 pts: The tool does not collect data on these events.	/10
1.2) Historical data availability Data collected by the tool about events and anomalies should be available as a series of snapshots or timestamps, to	10 pts: The tool does continuous surveillance and data is incrementally added to the database.	/10

(c) Demonstration

- (i) Canada may, but will have no obligation, to require that the top-ranked Bidder (identified after the financial evaluation) demonstrate any features, functionality and capabilities described in this bid solicitation or in its bid, in order to verify compliance with the requirements of this bid solicitation. If required, the demonstration must be conducted, at no cost to Canada, via web conference. Canada will provide no fewer than 5 working days of notice before the scheduled date for the demonstration. Once the demonstration has begun, it must be completed within two hours. The demonstration must be conducted during normal business hours, to be determined by the Contracting Authority. Canada will pay its own travel and salary costs associated with any demonstration. Despite the written bid, if Canada determines during a demonstration that the Bidder's proposed solution does not meet the mandatory requirements of this bid solicitation, the bid will be declared non-responsive. Canada may, as a result of a demonstration, reduce the score of the Bidder on any rated requirement, if the demonstration indicates that the score provided to the Bidder on the basis of its written bid is not validated by the demonstration. The Bidder's score will not be increased as a result of any demonstration. If the Bidder's score is reduced by the demonstration, Canada will reassess the ranking of all bidders.

4.3 Financial Evaluation

- (a) **Mandatory Financial Criteria :** Bidders must submit their financial bid in accordance with the Basis of Payment in Annex B. More precisely, Bidders must provide all of the information that is requested in Annex B. The total amount of Goods and Services Tax or Harmonized Sales Tax must be shown separately, if applicable.
- (b) **SACC Manual Clause A0222T (2007-05-25), Evaluation of Price**
- (c) **Financial evaluation process :**

For evaluation purposes only, the Bid Evaluated Price will be determined as follows:

$$\begin{aligned}
 & (7000 \text{ hours}) \times (\text{average hourly rate for an intermediate-level Developer}) \\
 + & (200 \text{ hours}) \times (\text{average hourly rate for a Project Manager}) \\
 + & (30000 \text{ units}) \times (\text{weighted-average unit price per license}) \\
 \hline
 & \text{Bid Evaluated Price}
 \end{aligned}$$

The "weighted-average unit price per license" used in the addition above will be computed as follows :

$$\begin{aligned}
 & (0.1) \times (\text{Un. price 1 - 999 licenses, maintenance/support incl.}) \\
 + & (0.5) \times (\text{Un. price 1000 - 9999 licenses, maintenance/support incl.}) \\
 + & (0.3) \times (\text{Un. price 10000 - 49999 licenses, maintenance/support incl.}) \\
 + & (0.1) \times (\text{Un. price 50000 - 99999 licenses, maintenance/support incl.}) \\
 \hline
 & \text{weighted-average unit price per license}
 \end{aligned}$$

For example :

$$\begin{aligned}
 & (\text{average hourly rate for an intermediate-level Developer}) = 100\$ \\
 & (\text{average hourly rate for a Project Manager}) = 110\$ \\
 & (\text{Un. price 1 - 999 licenses, maintenance/support incl.}) = 25\$ \\
 & (\text{Un. price 1000 - 9999 licenses, maintenance/support incl.}) = 20\$ \\
 & (\text{Un. price 10000 - 49999 licenses, maintenance/support incl.}) = 15\$ \\
 & (\text{Un. price 50000 - 99999 licenses, maintenance/support incl.}) = 10\$
 \end{aligned}$$

Weighted-average unit price per license :

$$\begin{array}{r}
 (0.1) \times (25\$) \\
 + (0.5) \times (20\$) \\
 + (0.3) \times (15\$) \\
 + (0.1) \times (10\$) \\
 \hline
 18\$
 \end{array}$$

Bid Evaluated Price :

$$\begin{array}{r}
 (7000 \text{ hours}) \times (100\$) \\
 + (200 \text{ hours}) \times (110\$) \\
 + (30000 \text{ un.}) \times (18\$) \\
 \hline
 1\,262\,000\$
 \end{array}$$

The numbers provided as examples above are provided solely for the purposes of determining the estimated price for each bid. It is an approximate estimate of the requirement that is provided in good faith and should not be considered a contract guarantee.

The rates provided above are provided as examples and should not be interpreted as indicative of the expertise of the labour categories.

4.4 Basis of Selection - Highest Combined Rating Technical Merit (60%) and Price (40%)

- (a) To be declared responsive, a bid must:
 - i. comply with all the requirements of the bid solicitation; and
 - ii. meet all mandatory criteria.
- (b) Bids not meeting i. or ii. will be declared non-responsive.
- (c) The selection will be based on the highest responsive combined rating of technical merit and price. The ratio will be 60% for the technical merit and 40% for the price.
- (d) To establish the technical merit score, the overall technical score for each responsive bid will be determined as follows: total number of points obtained / maximum number of points available multiplied by the ratio of 60%.
- (e) To establish the pricing score, each responsive bid will be prorated against the lowest evaluated price and the ratio of 40%.
- (f) For each responsive bid, the technical merit score and the pricing score will be added to determine its combined rating.
- (g) Neither the responsive bid obtaining the highest technical score nor the one with the lowest evaluated price will necessarily be accepted. The responsive bid with the highest combined rating of technical merit and price will be recommended for award of a contract.
- (h) The table below illustrates an example where all three bids are responsive and the selection of the contractor is determined by a 60/40 ratio of technical merit and price, respectively. The total available points equals 135 and the lowest evaluated price is \$45,000 (45).

Basis of Selection - Highest Combined Rating Technical Merit (60%) and Price (40%)

	Bidder 1	Bidder 2	Bidder 3
--	----------	----------	----------

Overall Technical Score	115/135	89/135	92/135
Bid Evaluated Price	55 000,00 \$	50 000,00 \$	45 000,00 \$
Calculations Technical Merit Score	$115/135 \times 60 = 51.11$	$89/135 \times 60 = 39.56$	$92/135 \times 60 = 40.89$
Pricing Score	$45/55 \times 40 = 32.73$	$45/50 \times 40 = 36.00$	$45/45 \times 40 = 40.00$
Combined Rating	83.84	75.56	80.89
Overall Rating	1st	3rd	2nd

- (i) Bidders should note that all contract awards are subject to Canada's internal approvals process, which includes a requirement to approve funding in the amount of any proposed contract. Despite the fact that the Bidder may have been recommended for contract award, a contract will only be awarded if internal approval is granted according to Canada's internal policies. If approval is not granted, no contract will be awarded.
- (j) If more than one bidder is ranked first because of identical overall scores, then the responsive bid which obtained the highest number of points overall for the point rated technical evaluation criteria will be recommended for award of a contract.

PART 5 - CERTIFICATIONS

Bidders must provide the required certifications to be awarded a contract. Canada will declare a bid non-responsive if the required certifications are not completed and submitted in accordance with the articles below.

Compliance with the certifications bidders provide to Canada is subject to verification by Canada during the bid evaluation period (before award of a contract) and after award of a contract. The Contracting Authority will have the right to ask for additional information to verify bidders' compliance with the certifications before award of a contract. The bid will be declared non-responsive if any certification made by the Bidder is untrue, whether made knowingly or unknowingly. Failure to comply with the certifications or to comply with the request of the Contracting Authority for additional information will also render the bid non-responsive.

5.1 Code of Conduct Certifications - Certifications Required Precedent to Contract Award

Bidders should provide, with their bid or promptly thereafter, a complete list of names of all individuals who are currently directors of the Bidder. If such a list has not been received by the time the evaluation of bids is completed, the Contracting Authority will inform the Bidder of a time frame within which to provide the information. Bidders must submit the list of directors before contract award, failure to provide such a list within the required time frame will render the bid non-responsive.

The Contracting Authority may, at any time, request that a Bidder provide properly completed and Signed Consent Forms (Consent to a Criminal Record Verification form - PWGSC-TPSGC 229) (<http://www.tpsgc-pwgsc.gc.ca/app-acq/forms/formulaires-forms-eng.html>) for any or all individuals named in the aforementioned list within a specified delay. Failure to provide such Consent Forms within the delay will result in the bid being declared non-responsive.

5.2 Certifications Precedent to Contract Award

The certifications listed below should be completed and submitted with the bid, but may be submitted afterwards. If any of these required certifications is not completed and submitted as requested, the Contracting Authority will so inform the Bidder and provide the Bidder with a time frame within which to meet the requirement. Failure to comply with the request of the Contracting Authority and meet the requirement within that time period will render the bid non-responsive.

5.2.1 Federal Contractors Program - Certification

- (a) The Federal Contractors Program for Employment Equity (FCP) requires that some suppliers, including a supplier who is a member of a joint venture, bidding for federal government contracts, valued at \$200,000 or more (including all applicable taxes), make a formal commitment to implement employment equity. This is a condition precedent to contract award. If the Bidder is subject to the FCP, evidence of its commitment must be provided before the award of the Contract.
- (b) Suppliers who have been declared ineligible contractors by Human Resources and Skills Development Canada (HRSDC) are no longer eligible to receive government contracts over the threshold for solicitation of bids as set out in the *Government Contract Regulations*. Suppliers may be declared ineligible contractors either as a result of a finding of non-compliance by HRSDC, or following their voluntary withdrawal from the

FCP for a reason other than the reduction of their workforce to fewer than 100 employees. Any bids from ineligible contractors will be declared non-responsive.

- (c) If the Bidder does not fall within the exceptions enumerated in (d)(i) or (ii) below, or does not have a valid certificate number confirming its adherence to the FCP, the Bidder must fax (819-953-8768) a copy of the signed form LAB 1168, Certificate of Commitment to Implement Employment Equity, to the Labour Branch of HRSDC.
- (d) Each bidder is requested to indicate in its bid whether it is:
 - (i) ☐ not subject to FCP, having a workforce of fewer than 100 permanent full or part-time permanent employees, or temporary employees having worked 12 weeks or more in Canada;
 - (ii) ☐ not subject to FCP, being a regulated employer under the *Employment Equity Act*, S.C. 1995, c. 44;
 - (iii) ☐ subject to the requirements of FCP, because it has a workforce of 100 or more permanent full or part-time permanent employees, or temporary employees having worked 12 weeks or more in Canada, but it has not previously obtained a certificate number from HRSDC (because it has not bid before on requirements of \$200,000 or more), in which case a duly signed certificate of commitment is required from the Bidder; or
 - (iv) ☐ subject to FCP, and has a valid certification number (i.e., has not been declared an ineligible contractor by HRSDC).
- (e) Further information on the FCP is available on the following HRSDC Website: <http://www.hrsdc.gc.ca/en/gateways/topics/wzp-gxr.shtml>.

 2. the amount claimed is in accordance with the Basis of payment and the Task Authorization;
 3. the total amount for all progress payments paid by Canada does not exceed 90 percent of the total amount to be paid under the Task Authorization.
- (b) The balance of the amount payable will be paid in accordance with the payment provisions of the Task Authorization and the Contract upon completion and delivery of all work required under the Task Authorization if the Work has been accepted by Canada and a final claim for the payment is submitted.
- (c) Progress payments are interim payments only. (D) all work associated with the milestone and any deliverable required have been completed, delivered, and accepted by Canada.

2. The balance of the amount payable will be paid in accordance with the basis of payment provisions of the Contract following delivery and acceptance of the Work for which milestone payments were made.

7.16 Limitation of Liability - Information Management/Information Technology

- (a) This section applies despite any other provision of the Contract and replaces the section of the general conditions entitled "Liability". Any reference in this section to damages caused by the Contractor also includes damages caused by its employees, as well as its subcontractors, agents, and representatives, and any of their employees. This section applies regardless of whether the claim is based in contract, tort, or another cause of action. The Contractor is not liable to Canada with respect to the performance of or failure to perform the Contract, except as described in this section and in any section of the Contract pre-establishing any liquidated damages. The Contractor is only liable for indirect, special or consequential damages to the extent described in this Article, even if it has been made aware of the potential for those damages.

(b) First Party Liability:

- (i) The Contractor is fully liable for all damages to Canada, including indirect, special or consequential damages, caused by the Contractor's performance or failure to perform the Contract that relate to:
- (A) any infringement of intellectual property rights to the extent the Contractor breaches the section of the General Conditions entitled "Intellectual Property Infringement and Royalties";
 - (B) physical injury, including death.
- (ii) The Contractor is liable for all direct damages caused by the Contractor's performance or failure to perform the Contract affecting real or tangible personal property owned, possessed, or occupied by Canada.

- (iii) Each of the Parties is liable for all direct damages resulting from its breach of confidentiality under the Contract. Each of the Parties is also liable for all indirect, special or consequential damages in respect of its unauthorized disclosure of the other Party's trade secrets (or trade secrets of a third party provided by one Party to another under the Contract) relating to information technology.
- (iv) The Contractor is liable for all direct damages relating to any encumbrance or claim relating to any portion of the Work for which Canada has made any payment. This does not apply to encumbrances or claims relating to intellectual property rights, which are addressed under (i)(A) above.
- (v) The Contractor is also liable for any other direct damages to Canada caused by the Contractor's performance or failure to perform the Contract that relate to:
 - (A) any breach of the warranty obligations under the Contract, up to the total amount paid by Canada (including any applicable taxes) for the goods and services affected by the breach of warranty; and
 - (B) any other direct damages, including all identifiable direct costs to Canada associated with re-procuring the Work from another party if the Contract is terminated by Canada either in whole or in part for default, up to an aggregate maximum for this subparagraph (B) of the greater of 0.75 times the total estimated cost (meaning the dollar amount shown on the first page of the Contract in the cell titled "Total Estimated Cost" or shown on each call-up, purchase order or other document used to order goods or services under this instrument), or \$1,000,000.00.

- (vi) If Canada's records or data are harmed as a result of the Contractor's negligence or willful act, the Contractor's only liability is, at the Contractor's own expense, to restore Canada's records and data using the most recent back-up kept by Canada. Canada is responsible for maintaining an adequate back-up of its records and data.

(c) Third Party Claims:

- (i) Regardless of whether a third party makes its claim against Canada or the Contractor, each Party agrees that it is liable for any damages that it causes to any third party in connection with the Contract as set out in a settlement agreement or as finally determined by a court of competent jurisdiction, where the court determines that the Parties are jointly and severally liable or that one Party is solely and directly liable to the third party. The amount of the liability will be the amount set out in the settlement agreement or determined by the court to have been the Party's portion of the damages to the third party. No settlement agreement is binding on a Party unless its authorized representative has approved the agreement in writing.
- (ii) If Canada is required, as a result of joint and several liability, to pay a third party in respect of damages caused by the Contractor, the Contractor must reimburse Canada by the amount finally determined by a court of competent jurisdiction to be the Contractor's portion of the damages to the third party. However, despite Sub-article (i), with respect to special, indirect, and consequential damages of third parties covered by this Section, the Contractor is only liable for reimbursing Canada for the Contractor's portion of those damages that Canada is required by a court to pay to a third party as a result of joint and several liability that relate to the infringement of a third party's intellectual property rights; physical injury of a third party, including death; damages affecting a third party's real or

tangible personal property; liens or encumbrances on any portion of the Work; or breach of confidentiality.

ANNEX A

STATEMENT OF WORK

1. General

1.1 Title

Extension of cyber incident response tool

1.2 Objective

Add additional features to a tool for responding to cyber incidents, in order to meet the needs of DND R & D in this area.

1.3 Background / History

Considerable efforts are currently devoted to the development of a process for responding to cyber incidents in DND. The development of this process requires an integrated cyber incident response tool, to assess the feasibility of several avenues proposed.

In recent years, tools for responding to cyber incidents have appeared on the market. A team of scientists from DRDC Valcartier Defence evaluated several of these tools. They concluded that no existing tool provides all the capabilities needed to support the development work of the process in question.

Development from scratch of a cyber incidents response tool with all desired capabilities would require too much effort for the project scope. It is therefore proposed to extend the capabilities of an existing cyber incidents response tool by adding additional features.

1.4 Acronyms

DND - Department of National Defence
TA - Task Authorization

2. APPLICABLE DOCUMENTS (references)

N/A

3. SCOPE OF WORK

The work under this contract is divided into three parts:

1. Firm contract: Licenses and maintenance needed for research and evaluation for the duration of the contract;
2. Work done on request by TA: Adding new features to the cyber incident response tool;
3. Option without funding: Licenses and maintenance once the development is completed;

3.1 - Firm contract: Licenses and maintenance needed for research and evaluation for the duration of the contract;

During the contract period, DRDC Valcartier will obtain 1000 licenses for the purpose of research and evaluation. These licenses will be used to evaluate the new features added to the tool by the work done on request by a TA. These licenses can be installed across the Government of Canada, according to the assessment needs and tests.

3.2 - Work done on request by TA: Adding new features to the cyber incident response tool;

Only one type of task is planned for this task authorization. This task is to create a new version of the cyber incident response tool with additional features for DND needs.

Given the efforts currently devoted to its development, the DND incident response process is constantly evolving. We therefore expect several features addition tasks, as needs become clearer, and according to the results of the evaluation of the features added in the previous iteration.

3.2.1 Tasks

In addition to the documents described in the contract, each TA request includes a list of additional features desired. This list may contain technology choices for the implementation of these features.

Secondly, the proposal submitted by the Contractor shall contain at least the following elements, in addition to the elements described in the contract:

- (i) A work plan for the implementation of additional features. The work plan shall identify:
 - a. architectural and technological choices that will be made for the implementation of additional features and impacts on the performance and use of the tool in general;
 - b. software modules to be developed and / or modified;
 - c. how these modules will be tested;
 - d. how these modules will be integrated in the current version of cyber incident response tool (software update plan).
- (ii) A description of the effort required for the implementation of additional features and associated costs.

Following receipt of the authorized TA by the DND procurement officer, the contractor will begin the work of implementation and tests. Deliverables may include, without limitation:

- (i) A complete new version of the cyber incident response tool, incorporating software modules developed and modified, in executable binary code form.
- (ii) An update plan for the integration of the new version of the tool in a process using the previous version. This plan should describe how the new software modules must be installed and how existing data must be updated. If the updated data is important, scripts must be provided to automate this task.

- (iii) Complete documentation in electronic format of the new version of the cyber incident response tool, including additional features.

3.2.2. REPORTS AND DELIVERABLES

The language used for all deliverables will be English. All deliverables shall be delivered in electronic format on disk (CD or DVD), in one copy to the Scientific Authority.

3.2.3 Publications

Any manuscript related to this contract for publication in scientific journals or conferences, as well as summaries of presentations or other kinds of publications, shall be submitted to the Scientific Authority for review and approval within a minimum of ninety (90) days before the date of the presentation or publication. An explicit reference to funding by the federal government must be included and must be clearly stated that the content is the responsibility of the authors. The Scientific Authority will provide a written objection if there are specific elements that are not in the best interests of the federal government.

3.2.4 MEETINGS

Meetings will be held with the Scientific Authority (or his representative) and DND employees involved in this project. Meetings may be in person at DRDC Valcartier, at the contractor's premises, or via videoconference. Meetings will be arranged by the contractor.

At a minimum, a kick-off meeting is required at the beginning of each task presented in Section 3. For steps with duration of more than one month, monthly monitoring of the work should be done with the Scientific Authority. This monitoring work can be done by phone, email or video conferencing. A short report summarizing this monitoring should then be produced by the contractor.

3.2.5 WORKPLACE

All work will be performed on the contractor's premises.

3.2.6 Government Supplied Material

Not applicable.

3.2.7 Government Furnished Equipment

Not applicable.

3.2.8 SPECIFIC FACTORS TO CONSIDER

There will be software development under this contract. The software in question will be tested on a test plan approved by the Scientific Authority, as described in Section 3.2.

Signature du représentant du MDN auquel on a délégué le **pouvoir d'approbation** en ce qui a trait à la signature du formulaire DND 626 (niveau d'autorité basé sur la valeur de la tâche et le signataire autorisé équivalent mentionné dans le MAA 1.4). **Nota :** la personne qui signe cette attache de signature confirme que les travaux respectent la portée du contrat, que suffisamment de fonds sont prévus au contrat pour couvrir cette tâche et que le budget alloué à l'unité ou pour le projet le permet.

Services

Définissez brièvement le besoin (joignez l'ET) et établissez le coût de la tâche à l'aide de la soumission de l'entrepreneur selon le niveau de difficulté de celle-ci. Les modalités de paiement stipulées dans le contrat s'appliquent à la tâche. Si plusieurs d'entre elles sont prévues, énumérez ici celle/celles qui s'appliquera/ront à la soumission pour la tâche à accomplir (p.ex. acompte fondé sur les étapes franchies; taux quotidien ou taux horaire établi selon la catégorie de main-d'œuvre; frais de déplacement et de séjour; prix fixe ou prix plafond; etc.). Toutes les modalités du contrat s'appliquent à cette autorisation de tâche et ne peuvent être négligées ou modifiées quant à la tâche en question. Il n'est donc pas nécessaire de répéter ces modalités générales afférentes au contrat sur le formulaire DND 626.

Prix

Mentionnez le coût de la tâche en le répartissant selon les frais afférents à chaque item mentionné dans la rubrique **Services**.

TPS/TVH

Mentionnez le montant de la TPS/TVH, s'il y a lieu.

Total

Mentionnez le coût total de la tâche. L'entrepreneur ne peut dépasser ce montant sans l'approbation du MDN, formulaire DND 626 modifié à l'appui. Le coût de la modification ne peut pas être supérieur à 50 p. 100 du montant initial prévu dans l'autorisation de tâche (ou au pourcentage prévu dans le contrat pour les modifications). Le coût total spécifié dans le formulaire DND 626, y compris toutes les modifications, ne peut dépasser le plafond de financement mentionné dans le contrat.

Ne s'applique qu'aux contrats de TPSGC

Le présent paragraphe s'applique uniquement aux autorisations de tâche accordées par TPSGC. On inscrira dans le formulaire DND 626 un plafond précis qui ne pourra être approuvé que par le MDN et un pourcentage selon lequel le MDN pourra approuver des modifications au formulaire DND 626 original. Les tâches dont le coût dépasse ces plafonds doivent être soumises à l'autorité contractante de TPSGC pour examen et signature avant qu'on autorise l'entrepreneur à débiter les travaux.

Nota :

Les travaux ne peuvent commencer avant la date de signature de ce formulaire par le responsable du MDN, pour les tâches dont le coût est inférieur au plafond établi par le MDN, et par le MDN et TPSGC pour les tâches dont le coût dépasse le plafond établi par le MDN.
