Amendment #1

1. A sample of 50 tags is required with a bid. The sample will be analyzed to determine if it meets the mandatory specifications set out in the tender.
2. No order quantity is guaranteed. 1.4M is the high range. Due to a possible regulation change in the near future the low estimated range could be 100,000 tags (or less). The bidder should take this information into account. Estimated usage range is revised to 100,000 to 1,400,000 tags.
3. The requirement is for all fish tags – the indication of “Lobster” on Annex III was meant as an example only.
4. Historically the tags are ordered in 2 main batches – for delivery in Feb/March (spring fisheries) and for delivery in Aug/Sept (fall fisheries). These orders are comprised of multiple call-ups – call-ups are separated by the tag species or fishing area. Estimated 5 call-ups for fall, 10 for spring. Bulk shipments of multiple sets to the 4 indicated licensing offices (Annex II) are to be included in tag costs – boxed in packages of 2500-3000 tags.
5. Additionally, orders are made to have tags sent directly to fishermen by the contractor. \$15 shipping/delivery is per set for all items shipped directly to fishermen (shipped individually in sets). Set size may vary from 25 tags to 563 tags.
6. The smallest call-up for 2012 was part of the spring batch ~5000 tags.
7. Call-ups of 5000 tags may be required for special orders may be required for C&P seizure or scientific/experimental tags.
8. A sample image is not available. Vendors should be able to produce the requirement based on the specifications.
9. Due to the range variation described in #2 a revised pricing structure/Basis of Payment with thresholds will be released in a subsequent amendment. This will be made available the week of August 13-17.
10. The closing date has been extended until 03 October 2012.

ANNEX II DELIVERY POINTS
