Amendment No. 002 is being issued to include information provided to bidders at the mandatory site visit and to provide answers to bidders questions received to date.

A mandatory site visit was conducted at 10:00hrs, 14 November 2012, at CFB Borden, followed by a physical inspection of the equipment at several locations, Building O-178 Well# 6, Building BP-82 Sewage control, Building BP-85 Chlorination Building, Building E-180 Well #4, Building O-41 Well #1, Building S-160 & S-157 elevated tank building, Building T-118 Indoor swimming pool.

The following information was presented to the bidders:

All listed equipment is to be maintained and repaired as per specifications and manufacturer's instructions.

Sites that are labelled Confined Space Entry will be treated IAW industry and Base Safety Laws.

All Federal, Provincial, Industry and Base Safety Regulations must be followed.

Questions and Answers:

Q1. In the RFP it states that it is mandatory to have a 447A Certification. However, at the site visit there was a question from a bidder indicating that this is an old certification and it has been replaced with a 307A certificate. Is the 307A certificate acceptable?

A1. A 307A Certificate is not acceptable for this Service Contract as it is a Steamfitter Certificate.

All other terms and conditions remain unchanged.
