Amendment No. 005

This Amendment No. 005 has been raised to answer questions from industry, as per the following:

Question 009:

Pertaining to the screening of employees requiring Reliability Status, our understanding of the RFP is to the effect that this requirement applies only to on site developers, consequently, if no employees are working on site, there is no screening required. Is this correct?

Answer 009:

CSC does not foresee any supplier resource(s) requiring access to protected information and/or sensitive work sites during the planning, design, adaptation/ configuration, testing data migration and training phases of the project.

However, SWAT request(s), which will only occur once the system is in the CSC production environment, may require access to both protected information and/or sensitive work sites.

Therefore, as per paragraph 6.1 (a) of the bid solicitation, the following conditions must be met at Bid Closing Date:

- (i) The Bidder must hold a valid organization security clearance and must be able to comply with the terms associated with the Security Requirement Check List provided with the bid solicitation. Bidders must refer to the terms outlined in Part 7 - Resulting Contract Clauses including Annex B; and,
- (ii) The Bidder's proposed individuals requiring access to classified or protected information, assets or sensitive work site(s) must each hold a valid reliability status, granted and approved by CISD/PWGSC.

ALL OTHER TERMS AND CONDITIONS REMAIN THE SAME.
