Amendment #003

This Amendment is being issued to answer a question.

Question #003: With regards to Part 3, section 3.1.2 Employee Experience and Past Performance, we have a PM 3 on staff who has over 5 years' experience, but not all of it has been with our organization. How should we go about referencing past performance for the period of time when he was with a different employer?

Answer #003: Please refer to the instructions in section 3.1.2 - Employee Experience and Past Performance. Specifically, the instructions state:

To carry out the work on this requirement, the contractor must provide five (5) qualified service personnel (one (1) qualified Diesel Engine Technician, one (1) qualified Petroleum Mechanic, one (1) qualified Electrician, one (1) qualified Transfer Switch Technician and one (1) qualified Infrared Thermographer).

The bidder must provide evidence to demonstrate that the service personnel proposed to perform maintenance of Generator and Generator Systems have five (5) years of recent experience and past performance by referencing two (2) similar projects/contracts within the last 8 years whereby the service personnel have performed satisfactorily. The bidder must complete the following form for each personnel who will be performing work on this requirement in order to demonstrate that each proposed personnel has the required experience.

- Recent experience is defined as experience gained from May 2005 up to and including the solicitation closing date.
- Similar is defined as maintenance service on Emergency Power Supply Systems comparable in size, scope and complexity to the equipment listed in Annex A, Statement of Work, Part 3 Equipment Inventory.

In cases where experience is acquired concurrently, the time period will be considered only once for the purpose of calculating the minimum requirement of 5 years of recent experience.

Example:

- Project 1: started on January 1, 2008 and ended on May 31, 2008 = 4 months
- Project 2: started on January 1, 2008 and ended on December 31, 2010 = 36 months
- Project 3: started on January 1, 2008 and ended on December 31, 2010 = 36 months

Total period for these 3 projects will count as 36 months and not 76 months because the period Jan. 2008 to Dec. 2009 has already been counted in Projects 2 and 3. This employee does not meet the required minimum of 5 years of recent experience.

In the event where the information for any of the service personnel cannot be confirmed by the client contacts named in the proposal, the proposal will be considered non-responsive and no further consideration will be given to the proposal. If the Bidder submits names of service personnel in excess of the stated requirement, only the references up to the identified limit of five (5) service personnel will be assessed. The first five (5) service personnel listed in the proposal will be considered for evaluation.

Therefore, to be clear, the 2 references (references must be valid) must be demonstrated by 2 separate, distinct and verifiable references and must demonstrate the five (5) years experience required. The references can be from 2 organizations but the projects/contracts must demonstrate the five (5) years work experience as laid out in the instructions above, thank you
