This amendment is raised to respond to questions from potential bidders and to make certain changes to the RFP as a result.

QUESTIONS

Reference: Section I: Technical Bid

Information to be filled in by the Bidder are left _____, please fill-in spaces accordingly.

Q1. Are bidders permitted to recreate sections of the solicitation which require a space be filled in or will Statistic Canada be providing fillable/editable document to be completed?

A1. Bidders may recreate sections, provided that they are not altering the clauses or terms and conditions in anyway.

Reference: Annex A: Statement of Work / Page 21

Pre Press

Line item 1:

Must have two (2) digital pre-press workstations and scanners that are fully integrated into print path

Q2. It is our assumption that Statistic Canada will be providing the workstations and/or servers, with the bidder being required to provide only the pre-press software, and the specification for the workstation is this a correct assumption?

A2. This is correct, Statistics Canada will provide the physical workstations and the Bidder is required to provide the software and configuration for integration.

Reference: Annex A: Statement of Work / Page 19

System/Network Compatibility

Line item 1:

Must be able to support the following network environments: Token Ring, Ethernet and FastEthernet topologies, Microsoft Windows, TCP/IP

Q3. We respectfully request for Statistic Canada to remove the Token Ring Specification as this option will increase the cost of the proposed solution and is most likely not required at this point in time.

Token Ring is an old network infrastructure rarely used and removing it will allow all vendor to bid. If still required by the IT group please add as an option so the crown can decide if the additional costs are required.

A3. Token Ring will be removed as a mandatory specification, please see revision number 1.

Reference: Annex A: Statement of Work / Page 20 Printers

Line item 19:

Must handle media up to 300 gsm / 110lb.cover

Q4. We respectfully request Statistic Canada to consider amending the criteria to 110lb index /200 gsm.**A4.** 110lb index / 200 gsm is acceptable, please see revision number 2.**Reference: Annex A: Statement of Work / Page 22 Scanners**

Line item 3 and 4:

Must scan documents as large as 12" x 18"(305 mm x 457 mm)

Q5. We respectfully request Statistic Canada to consider amending the criteria to 11x17

There are no scanners on the market that would be compliant with the specifications requested speed at 600dpi with 12x18 scanning. We respectfully request the crown to re-consider if it would be possible to change the criteria; A Sheet fed scanner connected directly to the pre-press workstation would still be supplied. Recent pre-press scanners for Digital Printing are limited to 11x17.

A5. The scanner specification should read 11 X 17, please see revision # 3.**Reference: Annex A under the SOW it states the following:****Q6.** Printers: Must meet speeds of 270 ipm for 8 1/2 X 11 and 125 ipm for 14 X17, can the crown confirm that it 14 X17 or should it read 11 X 17?

Must handle media from 8 x 10 to 14 x17, should this note read 11x17?

A6. Statistics Canada has a requirement to print 8.5 x 14 saddle- stitch booklets so 14 x 17 is required. Please note that speeds reflect the combined systems print speeds and are not necessarily reflective of each individual printer. Differing print speeds may be considered by Statistics Canada, provided that they are brought up throughout the Solicitation period and a formal revision is made to the RFP.
