Question and Answer

Q: With respect to the "Scheduling and Cost Control Seminar" is the course expected to be focused on providing information through theory based exercises or is it expected that the training will be integrated with hands-on software using a tech lab (computer's) environment. Is the training required to support specific DND projects?

A: It could be done either way as access to a computer lab is available. DND does have several projects that are in progress, however, we are not expecting the course to be customized to a particular DND project. Over time as the contractor becomes familiar with the DND environment, examples related to DND can be incorporated.

The financial evaluation will be conducted based on the courses marked with the asterisk (*) under Annex B. Bidders may propose alternate costing for course(s) if necessary.

ALL OTHER TERMS AND CONDITIONS REMAIN UNCHANGED.
