## PART 1 - GENERAL INFORMATION

### 1. Introduction

The Request for Supply Arrangements (RFSA) is divided into six parts plus attachments and annexes, as follows:

- Part 1 General Information: provides a general description of the requirement;
- Part 2 Supplier Instructions: provides the instructions applicable to the clauses and conditions of the RFSA;
- Part 3 Arrangement Preparation Instructions: provides suppliers with instructions on how to prepare the arrangement to address the evaluation criteria specified;
- Part 4 Evaluation Procedures and Basis of Selection: indicates how the evaluation will be conducted, the evaluation criteria which must be addressed in the arrangement, the security requirement, if applicable, and the basis of selection;
- Part 5 Certifications: includes the certifications to be provided; and
- Part 6 6A, Supply Arrangement, 6B, Bid Solicitation, and 6C, Resulting Contract Clauses:
  - 6A, includes the Supply Arrangement (SA) with the applicable clauses and conditions;
  - 6B, includes the instructions for the bid solicitation process within the scope of the SA;
  - 6C, includes general information for the conditions which will apply to any contract entered into pursuant to the SA.

The Annexes include the Requirement, the Supplier's Checklist and any other annexes.

#### 1.1 Supply Arrangement Method of Procurement

The intent of a SA is to establish a framework with a Supplier to permit the expeditious processing of legally binding contracts for snowplow products. SAs establish a set of procurement procedures and include a minimum set of terms and conditions which will apply to any resulting contract(s).

The SA method of supply will be used to satisfy "as required" requirements for Government of Canada's Departments and Agencies located in Alberta, including Parks Canada National Parks located in British Columbia (see herein for locations). Through this process, PWGSC establishes SAs with suppliers, to provide specific goods to Canada during a specified period. The SA is not in itself a Contract, but rather a base document that forms part of the future Request for Proposal (RFP) and resulting contract. When being issued a SA, the supplier accepts the obligation to provide the specified goods in accordance with the SA, under any resulting Contracts that may be awarded. Any resulting contracts will be established as a result of a RFP. These RFPs will specify the specific requirements of the authorized department, and may contain additional terms and conditions that the bidder must meet.

---

## 1.2 Overview of the Procurement Process

This Supply Arrangement process has two stages:

**Stage 1** is the Request for Supply Arrangement (RFSA) that results in the issuance of a Supply Arrangement to supplier(s) and the creation of a Supply Arrangement Holder List.

For Stage 1, a competitive RFSA is posted to MERX with information regarding the requirements. Suppliers are requested to submit an offer that meets the mandatory requirements of the RFSA. An evaluation of the arrangements is completed and the responsive supplier(s) are issued a Supply Arrangement (SA) for snowplow products to be supplied as required. All responsive suppliers are included on the SA Holders list.

**Stage 2** is the Request for Proposal (RFP) to Supply Arrangement Holders and may result in the issue of a Contract, for specific products to be delivered to the designated location.

For Stage 2, in accordance with the supply arrangement issued in Stage 1, a Request for Proposal is sent to one or more suppliers on the SA Holder List depending on the dollar value of the requirement. Based on the evaluation procedures and basis of selection outlined in the RFP, a resulting Contract is awarded. The dollar value of the requirement will determine whether a Government of Canada Department, Agency or Public Works and Government Services Canada (PWGSC) will conduct the Stage 2 process. Departments and Agencies may award, under their own contracting authority, Contracts for requirements up to \$24,999.99 (including all applicable taxes) and PWGSC will issue Contracts for requirements from \$25,000.00 (or lower if user's contracting authority is less than \$25,000.00) to a maximum of \$100,000.00 (including all applicable taxes).

SACC Manual clause A3050T (2010-01-11) Canadian Content Definition

#### 4. Debriefings

After issuance of a supply arrangement, suppliers may request a debriefing on the results of the request for supply arrangements process. Suppliers should make the request to the Supply Arrangement Authority within 15 working days of receipt of the results of the request for supply arrangements process. The debriefing may be in writing, by telephone or in person.

### PART 2 - SUPPLIER INSTRUCTIONS

#### 1. Standard Instructions, Clauses and Conditions

All instructions, clauses and conditions identified in the Request for Supply Arrangements (RFSA) by number, date and title are set out in the Standard Acquisition Clauses and Conditions (<http://ccua-sacc.tpsgc-pwgsc.gc.ca/pub/acho-eng.jsp>) Manual issued by Public Works and Government Services Canada.

Suppliers who submit an arrangement agree to be bound by the instructions, clauses and conditions of the RFSA and accept the clauses and conditions of the Supply Arrangement and resulting contract(s).

The 2008 (2011-05-16) Standard Instructions - Request for Supply Arrangements - Goods or Services, are incorporated by reference into and form part of the RFSA.

##### 1.1 SACC Manual Clauses

#### 2. Submission of Arrangements

Arrangements must be submitted only to Public Works and Government Services Canada (PWGSC) Bid Receiving Unit by the date, time and place indicated on page 1 of the Request for Supply Arrangements.

#### 3. Enquiries - Request for Supply Arrangements

All enquiries must be submitted in writing to the Supply Arrangement Authority no later than five (5) calendar days before the Request for Supply Arrangements (RFSA) closing date. Enquiries received after that time may not be answered.

Suppliers should reference as accurately as possible the numbered item of the RFSA to which the enquiry relates. Care should be taken by suppliers to explain each question in sufficient detail in order to enable Canada to provide an accurate answer. Technical enquiries that are of a proprietary nature must be clearly marked "proprietary" at each relevant item. Items identified as "proprietary" will be treated as such except where Canada determines that the enquiry is not of a proprietary nature. Canada may edit the questions or may request that suppliers do so, so that the proprietary nature of the question is eliminated, and the enquiry can be answered with copies to all suppliers. Enquiries not submitted in a form that can be distributed to all suppliers may not be answered by Canada.

#### 4. Applicable Laws

The Supply Arrangement (SA) and any contract awarded under the SA must be interpreted and governed, and the relations between the parties determined, by the laws in force in Alberta.

Suppliers may, at their discretion, substitute the applicable laws of a Canadian province or territory of their choice without affecting the validity of the arrangement, by deleting the name of the Canadian province or

---

territory specified and inserting the name of the Canadian province or territory of their choice. If no change is made, it acknowledges that the applicable laws specified are acceptable to the suppliers.

### **PART 3 - ARRANGEMENT PREPARATION INSTRUCTIONS**

#### **1. Arrangement Preparation Instructions**

Canada requests that suppliers provide the arrangement in separately bound sections as follows:

Section I: Technical Arrangement (one hard copy)

Section II: Certifications (one hard copy)

Canada requests that suppliers follow the format instructions described below in the preparation of the arrangement.

- (a) use 8.5 x 11 inch (216 mm x 279 mm) paper;
- (b) use a numbering system that corresponds to that of the Request for Supply Arrangements.

In April 2006, Canada issued a policy directing federal departments and agencies to take the necessary steps to incorporate environmental considerations into the procurement process Policy on Green Procurement(<http://www.tpsgc-pwgsc.gc.ca/ecologisation-greening/achats-nullprocurement/politique-policy-eng.html>). To assist Canada in reaching its objectives, suppliers are encouraged to:

- 1) use paper containing fibre certified as originating from a sustainably-managed forest and/or containing minimum 30% recycled content; and
- 2) use an environmentally-preferable format including black and white printing instead of colour printing, printing double sided/duplex, using staples or clips instead of cerlox, duotangs or binders.

#### **Section I: Technical Arrangement**

In the technical arrangement, suppliers should explain and demonstrate how they propose to meet the requirements and how they will carry out the Work.

#### **Section II: Certifications**

Suppliers must submit the certifications required under Part 5.

### **PART 4 - EVALUATION PROCEDURES AND BASIS OF SELECTION**

#### **1. Evaluation Procedures**

- (a) Arrangements will be assessed in accordance with the entire requirement of the Request for Supply Arrangements including the technical and financial evaluation criteria.
- (b) An evaluation team composed of representatives of Canada will evaluate the arrangements.

## 1.1. Technical Evaluation

### 1.1.1. Mandatory Technical Criteria

The supplier certifies they have the financial and technical ability to provide snowplow products as detailed herein.

Authorized Representative signature

\_\_\_\_\_  
Date

## 2. Basis of Selection - Mandatory Technical Criteria

An arrangement must comply with the requirements of the Request for Supply Arrangements and meet all mandatory technical evaluation criteria to be declared responsive.

### 2.1. Supply Arrangements - Multiple

All responsive arrangements will be issued a Supply Arrangement and added to the applicable SA holder list.

## PART 5 - CERTIFICATIONS

Suppliers must provide the required certifications to be issued a supply arrangement (SA). Canada will declare an arrangement non-responsive if the required certifications are not completed and submitted as requested.

Compliance with the certifications suppliers provide to Canada is subject to verification by Canada during the arrangement evaluation period (before issuance of a SA) and after issuance of a SA. The Supply Arrangement Authority will have the right to ask for additional information to verify suppliers' compliance with the certifications before issuance of a SA. The arrangement will be declared non-responsive if any certification made by the Supplier is untrue, whether made knowingly or unknowingly. Failure to comply with the certifications or to comply with the request of the Supply Arrangement Authority for additional information will also render the arrangement non-responsive.

### 1. Certifications Precedent to Issuance of a Supply Arrangement

The certifications listed below should be completed and submitted with the arrangement, but may be submitted afterwards. If any of these required certifications is not completed and submitted as requested, the Supply Arrangement Authority will so inform the Supplier and provide the Supplier with a time frame within which to meet the requirement. Failure to comply with the request of the Supply Arrangement Authority and meet the requirements within that time period will render the arrangement non-responsive.

#### 1.1 Federal Contractors Program - Certification

##### 1.1.1. Federal Contractors Program - \$200,000 or more

(S3030T, 2010-08-16)

1. The Federal Contractors Program (FCP) requires that some suppliers, including a supplier who is a member of a joint venture, bidding for federal government contracts, valued at \$200,000 or more (including all applicable taxes), make a formal commitment to implement employment equity. This is a condition precedent to the issuance of a supply arrangement. If the Supplier, or, if the Supplier is a joint venture and if any member of the joint venture, is subject to the FCP, evidence of its commitment must be provided before the issuance of a supply arrangement.

Suppliers who have been declared ineligible contractors by Human Resources and Skills Development Canada (HRSDC) are no longer eligible to receive government contracts over the threshold for solicitation of bids as set out in the Government Contracts Regulations. Suppliers may be declared ineligible contractors either as a result of a finding of non-compliance by HRSDC, or following their voluntary withdrawal from the FCP for a reason other than the reduction of their workforce to less than 100 employees. Any arrangements from ineligible contractors, including an arrangement from a joint venture that has a member who is an ineligible contractor, will be declared non-responsive.

2. If the Supplier does not fall within the exceptions enumerated in 3.(a) or (b) below, or does not have a valid certificate number confirming its adherence to the FCP, the Supplier must fax (819-953-8768) a copy of the signed form LAB 1168, Certificate of Commitment to Implement Employment Equity, to the Labour Branch of HRSDC.
3. The Supplier, or, if the Supplier is a joint venture the member of the joint venture, certifies its status with the FCP, as follows:

The Supplier or the member of the joint venture

- (a) ( ) is not subject to the FCP, having a workforce of less than 100 full-time or part-time permanent employees, and/or temporary employees having worked 12 weeks or more in Canada;
- (b) ( ) is not subject to the FCP, being a regulated employer under the Employment Equity Act, S.C. 1995, c. 44;
- (c) ( ) is subject to the requirements of the FCP, having a workforce of 100 or more full-time or part-time permanent employees, and/or temporary employees having worked 12 weeks or more in Canada, but has not previously obtained a certificate number from HRSDC (having not bid on requirements of \$200,000 or more), in which case a duly signed certificate of commitment is attached;
- (d) ( ) is subject to the FCP, and has a valid certificate number as follows: \_\_\_\_\_ (e.g. has not been declared an ineligible contractor by HRSDC).

Further information on the FCP is available on the HRSDC Web site.
