

Question 1:

After review of the RFSO it is noted that the description of services in Appendix D does not appear to match the overview provided in Section 3. Should a response address the elements contained in Section 3 or the ones described in Appendix D?

Response:

Section 3 provides background (3.2.1), identifies the three streams of work involved (3.2.2), minimum criteria required (3.2.3), and additional criteria requested (3.2.4). Appendix D provides detail on the questions to which the evaluation team will be expecting to find answers in a proponent's response. CMHC does not see a mis-match in these areas.
