Solicitation Document

It was confirmed that there is no requirement to provide a project schedule at bid closing.

It was stated by a potential bidder that Resulting Contract Clause 14. "Warranty – Contractor responsible for all costs" modifies the warranty section of General Conditions 2030. It was requested that the Contracting Authority explain the logic behind this modification as it is contrary to normal ship repair practices.

Resulting Contract Clause 14. "Warranty – Contractor responsible for all costs" is a recognized and current SAAC Manual Clause that it left to the discretion of the Contracting Authority to apply as required in order to protect the crown. This clause is commonly applied in the Atlantic region of PWGSC and has yet to cause issues with regards to the reasonable application of warranty claims.
