- a. What is the purpose of the Webcam and microphone (with whom will the ELPP's be communicating?)

Windows 8 Professional, 64Bit, English

**Question 18**

Section 11 Information Technology (IT) states:

"... Wireless access is not permitted within CFBs. ..."

Section 12.3 ELPP/3D Multimedia Developer/Graphic Designer states:

".... Connectivity options include 10/100/1000 Gigabyte Ethernet, Wireless LAN 802.11 b/g/n (@2.4 GHz) & Bluetooth, keyboard and mouse (no wireless)...."

The requirement in Section 12.3 seems to contradict the statement in section 11 regarding wireless access. If no wireless access is allowed on CFBs as per section 11, then why is wireless access capability listed as a requirement?

Similarly, why is Bluetooth listed as a requirement in section 12.3 especially since the next requirement is for a non-wireless keyboard and mouse the most common use for Bluetooth on a desktop system?

**Answer 18**

The Crown asserts that wireless and Bluetooth capability are standard features on the vast majority of computer systems today. Although wireless technology use is currently not permitted within CFB Gagetown, the requirement exists so that, in the event of a policy change, the capability will reside within the systems.

**Question 19**
