### **2. REQUIREMENT**

The "Requirement" is detailed under Annex A of the resulting contract clauses.

### **3. DEBRIEFINGS**

Bidders may request a debriefing on the results of the bid solicitation process. Bidders should make the request to the Contracting Authority within 15 working days of receipt of the results of the bid solicitation process. The debriefing may be in writing, by telephone or in person.

## **PART 2 - BIDDER INSTRUCTIONS**

### **1. STANDARD INSTRUCTIONS, CLAUSES AND CONDITIONS**

All instructions, clauses and conditions identified in the bid solicitation by number, date and title are set out in the Standard Acquisition Clauses and Conditions Manual (<https://buyandsell.gc.ca/policy-and-guidelines/standard-acquisition-clauses-and-conditions-manual>) issued by Public Works and Government Services Canada.

Bidders who submit a bid agree to be bound by the instructions, clauses and conditions of the bid solicitation and accept the clauses and conditions of the resulting contract.

The 2003 (2013-06-01) Standard Instructions - Goods or Services - Competitive Requirements, are incorporated by reference into and form part of the bid solicitation.

Subsection 5.4 of 2003, Standard Instructions - Goods or Services - Competitive Requirements, is amended as follows:

Delete: sixty (60) calendar days

Insert: one hundred and twenty (120) calendar days

### **2. SUBMISSION OF BIDS**

### **3. ENQUIRIES - BID SOLICITATION**

All enquiries must be submitted in writing to the Contracting Authority no later than seven (7) calendar days before the bid closing date. Enquiries received after that time may not be answered.

Bidders should reference as accurately as possible the numbered item of the bid solicitation to which the enquiry relates. Care should be taken by bidders to explain each question in sufficient detail in order to enable Canada to provide an accurate answer. Technical enquiries that are of a proprietary nature must be clearly marked "proprietary" at each relevant item. Items identified as "proprietary" will be treated as such except where Canada determines that the enquiry is not of a proprietary nature. Canada may edit the questions or may request that the Bidder do so, so that the proprietary nature of the question is eliminated, and the enquiry can be answered with copies to all bidders. Enquiries not submitted in a form that can be distributed to all bidders may not be answered by Canada.

**4. APPLICABLE LAWS**

Any resulting contract must be interpreted and governed, and the relations between the parties determined, by the laws in force in Ontario.

Bidders may, at their discretion, substitute the applicable laws of a Canadian province or territory of their choice without affecting the validity of their bid, by deleting the name of the Canadian province or territory specified and inserting the name of the Canadian province or territory of their choice. If no change is made, it acknowledges that the applicable laws specified are acceptable to the bidders.

**5. VIEWING SAMPLE - RETURN TO SENDER**

The viewing sample which may have been sent to you, are to be returned to the sender, if you are the unsuccessful Bidder. The viewing sample is not to be mutilated or cut, and must be returned in the same condition as sent to the Bidder.

Section I - Technical Bid (2 hard copies)

Section II - Financial Bid (1 hard copy)

Section III - Certifications (1 hard copy)

Prices must appear in the financial bid only. No prices must be indicated in any other section of the bid.

Canada requests that bidders follow the format instructions described below in the preparation of their bid:

- (a) use 8.5 x 11 inch (216 mm x 279 mm) paper;
- (b) use a numbering system that corresponds to the bid solicitation;

In April 2006, Canada issued a policy directing federal departments and agencies to take the necessary steps to incorporate environmental considerations into the procurement process [Policy on Green Procurement](http://www.tpsgc-pwgsc.gc.ca/ecologisation-greening/achats-procurement/politique-policy-eng.html) <http://www.tpsgc-pwgsc.gc.ca/ecologisation-greening/achats-procurement/politique-policy-eng.html>.

To assist Canada in reaching its objectives, bidders should:

1) use 8.5 x 11 inch (216 mm x 279 mm) paper containing fibre certified as originating from a sustainably-managed forest and containing minimum 30% recycled content; and

2) use an environmentally-preferable format including black and white printing instead of colour printing, printing double sided/duplex, using staples or clips instead of cerlox, duotangs or binders.

3) Green Initiatives (for PWGSC information only)

Bidders are requested to provide details of their policies and practices in relation to the following initiatives:

- environmentally responsible manufacturing;
- environmentally responsible waste disposal;
- waste reduction;

### **Section III: Certifications**

Bidders must submit the certifications required under Part 5.

## **PART 4 - EVALUATION PROCEDURES AND BASIS OF SELECTION**

### **1. EVALUATION PROCEDURES**

(a) Bids will be assessed in accordance with the entire requirement of the bid solicitation including the technical and financial evaluation criteria.

(b) An evaluation team composed of representatives of Canada will evaluate the bids.

#### **1.1 TECHNICAL EVALUATION**

##### **1.1.1 MANDATORY TECHNICAL CRITERIA**

**PRE-AWARD SAMPLE AND SUPPORTING DOCUMENTATION**

As part of the technical evaluation, to confirm a bidder's capability of meeting the technical requirements, one (1) pre-award sample of size W34/I32 (stock no. 2890-440), test results and certificates of compliance will be required after the bid closing date, upon a written request from PWGSC, from low bidder(s) who never supplied this item to the Royal Canadian Mounted Police (RCMP).

The requirement for a pre-award sample of the item may be waived if the Bidder has:

- a) supplied the item to the Royal Canadian Mounted Police (RCMP) in accordance with the latest specification and within the last three (3) years from the closing date of this document.

Please specify:

Item supplied:

Your previous Contract/Standing Offer number: \_\_\_\_\_

- b) submitted a pre-award sample of the item on a previous requirement to the latest specification and where the pre-award sample was found to be compliant. It is mandatory that a copy of the evaluation report be provided upon request from the Contracting Authority.

If a) or b) above has been met, the Bidder represents and warrants that no significant changes have occurred in their manufacturing processes, their organization or their sub-contractors' organization since the last award or pre-award qualification that could affect the manufacturing of the referenced item.

The Bidder must submit the pre-award sample if a waiver is not given. The Bidder will be advised when the pre-award sample, test results and certificates of compliance are required.

The Bidder must ensure that the required pre-award sample is manufactured in accordance with the technical requirement and is fully representative of the bid submitted. Rejection of the pre-award sample will result in the bid being declared non-responsive.

An RCMP viewing sample will be provided to bidder(s) who is(are) requested to provide a pre-award sample and is to be used for guidance for all factors not covered by the RCMP specification. The RCMP specification shall govern.

The Bidder must deliver the required pre-award sample, test results and certificates of compliance at no charge to Canada and must ensure that they are received within 45 calendar days [including purchase and receipt of GAM] from request. Failure to submit the required pre-award sample, test results and certificates of compliance within the specified time frame will result in the bid being declared non-responsive. The sample submitted by the Bidder will remain the property of Canada.

Laboratory analysis of the product offered showing test results as detailed in Table 1 of the RCMP specification G.S. 1045-078 must be provided with the pre-award sample unless a Certificate of Compliance is provided from the known product suppliers as listed below Table 1 on page 19 of the specification. Testing must be performed by an independent accredited laboratory establishment and must be in accordance with the test methods detailed in the Requirement. The laboratory report and test results must be dated within the last eighteen (18) months of the submission of the test results.

In addition, Certificates of Compliance for the components listed below are required as defined herein and as per the RCMP specification G.S. 1045-078:

- lining material (paragraph 4.1.3.1) - Certificate of Compliance from a known product supplier or complete test results as per Table 1;

- thread (paragraphs 4.1.6.1 and 4.1.6.2);;
- eyelets (paragraph 4.1.9);
- hook and eye (paragraph 4.1.10); and
- slide fastener (paragraph 4.1.14).

The pre-award sample will be evaluated for quality of workmanship and conformance to specified materials and measurements.

The requirement for a pre-award sample, test results and certificates of compliance will not relieve the successful bidder from submitting sample, test results and certificates of compliance as required by the contract terms or from strictly adhering to the technical requirement of this Request for Proposal and any resultant contract.

### **PATTERNS**

A pattern for regular sizes only will be provided to bidder(s) who will be required to submit a pre-award sample. The pattern is the property of the RCMP and must be returned to PWGSC with the pre-award sample. If a bidder fails to submit a pre-award sample within the specified time frame or chooses not to submit the pre-award sample, the pattern must be returned directly to the RCMP without delay.

### **CERTIFICATE OF COMPLIANCE - DEFINITION**

A certificate of compliance is defined for this solicitation as a signed and dated certification by an appropriate official of the component manufacturer (e.g. zipper, hook and loop, webbing, etc.). It must specifically address the adherence of the offered component to the specification or manufacturing data of the technical requirement.

A separate certificate of compliance must be provided for each individual product or component. It must be dated within eighteen (18) months of the submission of the certificate of compliance.

The Bidder is to note that copies of invoices, purchase orders and Certificate of Compliance for products or components that are not manufactured by the certifier are not suitable for use as a Certificate.

## **1.2 FINANCIAL EVALUATION**

### **1.2.1 MANDATORY FINANCIAL CRITERIA**

- a. The Bidder must submit firm unit prices in Canadian dollars, applicable taxes are excluded, DDP (Ottawa, ON) Incoterms 2000, transportation costs included, all applicable Customs Duties and Excise taxes included.
- b. The Bidder must submit firm unit pricing for all items including options and "as and when requested" quantities.

## **2. BASIS OF SELECTION**

A bid must comply with all requirements of the bid solicitation and meet all mandatory technical and financial evaluation criteria to be declared responsive.

The responsive bid with the lowest evaluated aggregate price will be recommended for award of a contract (1 contract only). Evaluation will be established using the firm quantity for the item, 100% of the option quantities and 100% of the "as and when requested" quantities.

## **3. CONTRACT FINANCIAL SECURITY**

1. If this bid is accepted, the Bidder may be required to provide contract financial security, after the bid closing date and within 10 calendar days from receipt of a written request from the Contracting Authority.

(a) a security deposit as defined in clause "Security Deposit Definition" in the amount of up to ten percent (10%) of the contract price.

2. Security deposits in the form of government guaranteed bonds with coupons attached will be accepted only if all coupons that are unmaturing, at the time the security deposit is provided, are attached to the bonds. The Contractor must provide written instructions concerning the action to be taken with respect to coupons that will mature while the bonds are pledged as security, when such coupons are in excess of the security deposit requirement.

3. If Canada does not receive the required financial security within the specified period, Canada may, as its discretion, accept another offer, issue a new bid solicitation, award a contract or reject all the bids.

#### **4. SECURITY DEPOSIT DEFINITION**

- (g) must be issued (Issuer) or confirmed (Confirmer), in either official language, by a financial institution that is a member of the Canadian Payments Association and is on the letterhead of the Issuer or Confirmer. The format is left to the discretion of the Issuer or Confirmer.

## **PART 5 - CERTIFICATIONS**

Bidders must provide the required certifications and documentation to be awarded a contract.

The certifications provided by bidders to Canada are subject to verification by Canada at all times. Canada will declare a bid non-responsive, or will declare a contractor in default, if any certification made by the Bidder is found to be untrue whether during the bid evaluation period or during the contract period.

The Contracting Authority will have the right to ask for additional information to verify the Bidders certifications. Failure to comply with this request will also render the bid non-responsive or will constitute a default under the Contract.

If any of these required certifications is not completed and submitted as requested, the Contracting Authority will so inform the Bidder and provide the Bidder with a time frame within which to meet the requirement.
