

Q&A Part 3 - : Water and Wastewater Extensions - Riding Mountain National Park

Q. Section 02150.1.2.1 – Measurement and Payment – Pressure Pipelines (19mm Water Service Lines) – It states the water service pipe will be paid for by the linear meter, the bid sheet has them listed as each.

A The number of services and length of the lines are stated in the Solicitation document.

Q Section 02150.1.9.1 – Measurement and Payment – Manholes – It states manholes will be paid for by the vertical meter, the bid sheet has them listed as each.

A The number of manholes and length of the lines are stated in the Solicitation document.

Q Will any additional information be provided for Item 12, Drain and Pumpout Manholes Inc Assessories?

A No further information about manholes will be provided.

Q I was wondering since you have not done any test drilling, What if large rock is found and we are unable to excavate them out, is there any provisions for this?

A We have no provisions for removal of large boulders.
