**July 18, 2013**

**Subject: Construction Requirement – LL 227 James Island**

**ADDENDUM NO. 1**

Further to the above mentioned Request for Proposal documentation previously forwarded to your firm, Addendum (#1) is hereby issued to provide bidders with additional clarification.

**\*\*Please note that the bid closing date has changed from Wednesday, July 24 to Friday, August 2, 2013 at 11a.m. (Pacific Time).**

**Q1)** This Tender is presented as a pile driving project. Given that there is no soils information provided, what will happen if the piles cannot be driven to the required penetration and tip elevations? I.E. if bedrock or underground obstructions are encountered what will the contractor be instructed to do and how will the contractor be compensated for this addition work?

**A1)** A geotechnical desk top was conducted elevations have been set based on general site conditions. See specification section 3.2 and Construction General Conditions Section GC6.

**Q2)** Specification section 1.18.1 refers to the Contractor having to obtain and pay for all permits. Please clarify if this includes the required DFO Letter of Authorization for the Project. If not, please forward a copy of the DFO authorization.

**A2)** Authorization letter is not required (See specification section 1.13.1).

**Q3)** Specification Section 1.14.6 refers to the BC Marine and Pile Driving Contractors Association BMP document. As there are several versions of this document in use, please forward a copy of the document you would like us to follow.

**A3)** See 2003 version posted in the RFQ.

**Q4)** Specification Section 1.14.7 refers to *the attached "Standard Mitigation Organized by Project Activity"*. Please forward a copy of this document as it was not included in our package.

Fisheries and Oceans
