Yukon®
Exceptional Refrigeration Solutions for Value-Minded Retailers

SCHOTT Gemtron's Yukon® NT models offers the valued-minded retailer the protection that is needed for today's commercial refrigeration demands. Yukon® is offered with 3 options, NT (standard normal temp), NTH (high humidity normal temp), and LT (low temp).

Yukon® products offer features typically found in higher-end door systems—including sturdy aluminum construction, bright T-8 lighting, and adjustable shelves. And, with a broad range of optional product features and upgrades, Yukon® systems can be easily customized to meet individual customer needs.

The SCHOTT Gemtron Yukon® model exceeds the new 2009 Department of Energy regulations.

The **future** starts with SCHOTT Gemtron **today**.

T-8 Lighting *STANDARD*

SCHOTT Gemtron has offered standard T-8 lighting on the Yukon® models since their introduction. This reliable lighting system delivers over 1100 lumens to your merchandise so that your customers can easily identify the product they are purchasing.

Polaris® LED is an option on the Yukon models.

- ♦ Custom sizes available

SCHOTT
Gemtron

Yukon™

Polaris™ LED Available

SCHOTT Gemtron now offers the new Polaris® LED lighting system designed specifically for the commercial refrigeration industry as **optional** lighting for Yukon® NT-NTH-LT models. This industry leading light output system is designed to handle the harsh cold environments for both the normal and low temp applications. Our name says it all, Polaris®. This patent pending design offers light pointed directly where it needs to be, at the merchandise to aid in increased product sales. This energy efficient Polaris® design can save you up to 90% of your current energy cost and also remove the amount of heat that is added to your cold environment, therefore reducing compressor run times. The SCHOTT Gemtron Polaris® design has an exclusive light ejection chamber. When you add up all the benefits of the Polaris® LED lighting systems you will enjoy a fast payback on your lighting investment.

Frame Features

Yukon® frames have been designed by SCHOTT Gemtron to provide maximum condensation protection, weight load, as well as maximum energy efficiency. This unique combination of benefits places Yukon® well ahead of our competition on the market today. The innovative Yukon® design easily incorporates elegance, durability, and energy efficiency.

Welded Frames

Shelving

Attractive, strong, and easy to install and maintain, shelving systems from SCHOTT Gemtron offer many benefits for retailers. SCHOTT Gemtron shelves help retailers to maximize both appearance and cost-effectiveness in their displays – while also making it convenient for consumers to find and access the exact products they're looking for. SCHOTT Gemtron shelving systems complement the company's full line of Yukon® refrigeration door systems.
