Annex A Requirement / Evaluation
Annex B Basis of Payment

PART 1 - GENERAL INFORMATION

1. Security Requirement

There is no security requirement associated with this bid solicitation.

2. Requirement

The requirement is detailed under Article 2 of the resulting contract clauses.

3. Debriefings

After contract award, bidders may request a debriefing on the results of the bid solicitation process. Bidders should make the request to the Contracting Authority within 15 working days of receipt of the results of the bid solicitation process. The debriefing may be in writing, by telephone or in person.

PART 2 - BIDDER INSTRUCTIONS

1. Standard Instructions, Clauses and Conditions

All instructions, clauses and conditions identified in the bid solicitation by number, date and title are set out in the *Standard Acquisition Clauses and Conditions Manual* (<https://buyandsell.gc.ca/policy-and-guidelines/standard-acquisition-clauses-and-conditions-manual>) issued by Public Works and Government Services Canada.

Bidders who submit a bid agree to be bound by the instructions, clauses and conditions of the bid solicitation and accept the clauses and conditions of the resulting contract.

The 2003 (2012-11-19) Standard Instructions - Goods or Services - Competitive Requirements, are incorporated by reference into and form part of the bid solicitation.

2. Submission of Bids

Bids must be submitted only to Public Works and Government Services Canada (PWGSC) Bid Receiving Unit by the date, time and place indicated on page 1 of the bid solicitation.

3. Enquiries - Bid Solicitation

All enquiries must be submitted in writing to the Contracting Authority no later than fifteen (15) calendar days before the bid closing date. Enquiries received after that time may not be answered.

Bidders should reference as accurately as possible the numbered item of the bid solicitation to which the enquiry relates. Care should be taken by bidders to explain each question in sufficient detail in order to enable Canada to provide an accurate answer. Technical enquiries that are of a proprietary nature must be clearly marked "proprietary" at each relevant item. Items identified as "proprietary" will be treated as such except where Canada determines that the enquiry is not of a proprietary nature. Canada may edit the questions or may request that the Bidder do so, so that the proprietary nature of the question is eliminated, and the enquiry can be answered with copies to all bidders. Enquiries not submitted in a form that can be distributed to all bidders may not be answered by Canada.

4. Applicable Laws

Any resulting contract must be interpreted and governed, and the relations between the parties determined, by the laws in force in British Columbia.

Bidders may, at their discretion, substitute the applicable laws of a Canadian province or territory of their choice without affecting the validity of their bid, by deleting the name of the Canadian province or territory specified and inserting the name of the Canadian province or territory of their choice. If no change is made, it acknowledges that the applicable laws specified are acceptable to the bidders.

PART 3 - BID PREPARATION INSTRUCTIONS

1. Bid Preparation Instructions

Canada requests that bidders provide their bid in separately bound sections as follows:

Section I: Technical Bid (2_ hard copies)

Section II: Financial Bid (1_ hard copies)

Section III: Certifications (_2_ hard copies)

Prices must appear in the financial bid only. No prices must be indicated in any other section of the bid.

Canada requests that bidders follow the format instructions described below in the preparation of their bid:

- (a) use 8.5 x 11 inch (216 mm x 279 mm) paper;
- (b) use a numbering system that corresponds to the bid solicitation.

In April 2006, Canada issued a policy directing federal departments and agencies to take the necessary steps to incorporate environmental considerations into the procurement process Policy on Green Procurement

(<http://www.tpsgc-pwgsc.gc.ca/ecologisation-greening/achats-procurement/politique-policy-eng.html>). To assist Canada in reaching its objectives, bidders should:

- 1) use 8.5 x 11 inch (216 mm x 279 mm) paper containing fibre certified as originating from a sustainably-managed forest and containing minimum 30% recycled content; and
- 2) use an environmentally-preferable format including black and white printing instead of colour printing, printing double sided/duplex, using staples or clips instead of cerlox, duotangs or binders.

Section I: Technical Bid

In their technical bid, bidders should explain and demonstrate how they propose to meet the requirements and how they will carry out the Work.

Section II: Financial Bid

Bidders must submit their financial bid in accordance with the Basis of Payment. The total amount of Applicable Taxes must be shown separately, if applicable.

1.1 Exchange Rate Fluctuation

C3011T (2010-01-11), Exchange Rate Fluctuation

1.2 SACC Manual Clauses

Section III: Certifications

Bidders must submit the certifications required under Part 5.

PART 4 - EVALUATION PROCEDURES AND BASIS OF SELECTION

1. Evaluation Procedures

- (a) Bids will be assessed in accordance with the entire requirement of the bid solicitation including the technical and financial evaluation criteria.
- (b) An evaluation team composed of representatives of Canada will evaluate the bids.

1.1 Technical Evaluation

1.1.1 Mandatory Technical Criteria

See Annex A, Requirement

1.2 Financial Evaluation

SACC Manual Clause A0220T (2013-04-25) Evaluation of Price

2. Basis of Selection A0031T

2.1 A bid must comply with the requirements of the bid solicitation and meet all mandatory technical evaluation criteria to be declared responsive. The responsive bid with the lowest evaluated price will be recommended for award of a contract.

PART 5 - CERTIFICATIONS

Bidders must provide the required certifications and documentation to be awarded a contract. The certifications provided by bidders to Canada are subject to verification by Canada at all times. Canada will declare a bid non-responsive, or will declare a contractor in default, if any certification made by the Bidder is found to be untrue whether during the bid evaluation period or during the contract period.

The Contracting Authority will have the right to ask for additional information to verify the Bidder's certifications. Failure to comply with this request will also render the bid non-responsive or will constitute

a default under the Contract.

1. Mandatory Certifications Required Precedent to Contract Award

1.1 Code of Conduct and Certifications - Related documentation

By submitting a bid, the Bidder certifies that the Bidder and its affiliates are, in compliance with the provisions as stated in Section 01 Code of Conduct and Certifications – Bid of Standard Instructions 2003. The related documentation therein required will assist Canada in confirming that the certifications are true.

1.2 Federal Contractors Program for Employment Equity - Bid Certification

By submitting a bid, the Bidder certifies that the Bidder, and any of the Bidder's members if the Bidder is a Joint Venture, is not named on the Federal Contractors Program (FCP) for employment equity "FCP Limited Eligibility to Bid" list (http://www.labour.gc.ca/eng/standards_equity/eq/emp/fcp/list/inelig.shtml) available from Human Resources and Skills Development Canada (HRSDC) - Labour's website.

Canada will have the right to declare a bid non-responsive if the Bidder, or any member of the Bidder if the Bidder is a Joint Venture, appears on the " Limited Eligibility to Bid " list at the time of contract award.

PART 6 - RESULTING CONTRACT CLAUSES

1. Security Requirement

There is no security requirement applicable to this Contract.

2. Requirement

The Contractor must provide the items detailed under the "Requirement" at Annex "A".

3. Standard Clauses and Conditions

All clauses and conditions identified in the Contract by number, date and title are set out in the *Standard Acquisition Clauses and Conditions Manual* (<https://buyandsell.gc.ca/policy-and-guidelines/standard-acquisition-clauses-and-conditions-manual>) issued by Public Works and Government Services Canada.

3.1 General Conditions

2010A (2013-04-25), General Conditions - Goods (Medium Complexity), apply to and form part of the Contract.

4. Term of Contract

4.1 Delivery Date

See Annex B.

5. Authorities

5.1 Contracting Authority

The Contracting Authority for the Contract is:

Kathy Large
Supply Officer | Agente d'approvisionnement

Public Works and Government Services Canada | Travaux publics et Services gouvernementaux
Canada
401-1230 Government St, Victoria, B.C. V8W 3X4

Telephone | Téléphone: (250) 363-8456
Facsimile | Télécopier: (250) 363-0395
Email | Courriel: kathy.large@pwgsc-tpsgc.gc.ca

The Contracting Authority is responsible for the management of the Contract and any changes to the Contract must be authorized in writing by the Contracting Authority. The Contractor must not perform work in excess of or outside the scope of the Contract based on verbal or written requests or instructions from anybody other than the Contracting Authority.

5.2 Technical Authority

The Technical Authority for the Contract is:

Jeff Manney, Captain | Capitaine
Project Officer Critical Infrastructure/Officier de project pour les infrastructures critiques
Canadian Forces Maritime Experimental & Test Ranges/
Centres d'Expérimentation et d'Essais Maritimes des Forces Canadiennes

National Defence | Défence nationale

PO Box 188 Nanoose Bay, BC V9P 9J9
Jeffrey.Manney@forces.gc.ca
Telephone | Téléphone 250-468-5011 | CSN 337-5011
Facsimile | Télécopieur 250-468-5055
Cell | Cellulaire 250-713-1351

The Technical Authority named above is the representative of the department or agency for whom the Work is being carried out under the Contract and is responsible for all matters concerning the technical content of the Work under the Contract. Technical matters may be discussed with the Technical Authority, however the Technical Authority has no authority to authorize changes to the scope of the Work. Changes to the scope of the Work can only be made through a contract amendment issued by the

Contracting Authority.

5.3 Contractor's Representative

Name: _____

Title: _____

Organization: _____

Address: _____

Telephone : _____

Facsimile: _____

E-mail address: _____

6. Payment

6.1 Basis of Payment

See Annex B

6.2 Limitation of Expenditure

The Contractor will be reimbursed for the costs reasonably and properly incurred in the performance of the Work, as determined in accordance with the Basis of Payment in Annex B, to a limitation of expenditure of \$_____. Customs duties are *included* and Applicable Taxes are extra.

6.3 Single Payment

SACC Manual clause H1000C (2008-05-12) Single Payment

7. Invoicing Instructions

1. The Contractor must submit invoices in accordance with the section entitled "Invoice Submission" of the general conditions. Invoices cannot be submitted until all work identified in the invoice is completed.

2. Invoices must be distributed as follows:

The original and one (1) copy must be forwarded to the address shown on page 1 of the Contract for certification and payment.

8. Certifications

8.1 Compliance

Compliance with the certifications and related documentation provided by the Contractor in its bid is a condition of the Contract and subject to verification by Canada during the term of the Contract. If the Contractor does not comply with any certification, provide the related documentation or if it is determined that any certification made by the Contractor in its bid is untrue, whether made knowingly or unknowingly, Canada has the right, pursuant to the default provision of the Contract, to terminate the Contract for default.

9. **Applicable Laws**

The Contract must be interpreted and governed, and the relations between the parties determined, by the laws in force in _____.

10. **Priority of Documents**

If there is a discrepancy between the wording of any documents that appear on the list, the wording of the document that first appears on the list has priority over the wording of any document that subsequently appears on the list.

- (a) the Articles of Agreement;
- (b) the general conditions 2010A (2013-04-25) General Conditions - Goods (Medium Complexity);
- (d) Annex A, Requirement & Evaluation;
- (e) Annex B, Basis of Payment;
- (f) the Contractor's bid dated _____

B7500C (2006-06-16) Excess Goods

ANNEX "A"

REQUIREMENT

The Department of National Defense (DND) requires 1 Single Phase Stand-by Rated Diesel Generator. DND requires a minimum 25KW **60Hz** 240VAC Single Phase Stand-by Rated Diesel Generator set with integrated enclosure, controls, and integrated dual wall sub-base fuel tank certified to meet outdoor use. The Genset must be UL2200 listed with the following additional specific capabilities and/or requirements as indicated below.

Note 1: NOT all parameters must be available for display at the local control point.

Note 2: The remote panel will be mounted inside a building at not more than 50feet from the genset.

Bidders must illustrate that they can meet all of the following mandatory evaluation criteria to be considered responsive. Checking off that you "Meet" the criteria below is not sufficient information to indicate how you meet the criteria

A combination of a specification sheet and a description of how each individual criteria is met may be required to meet the mandatory evaluation criteria below.

Mandatory Evaluation Criteria

Item	Description	Meets	Does not meet
1	Minimum 25KW 60Hz 240VAC Single Phase Stand-by Rated Diesel Generator set		
2	Genset must be UL2200		
3	The Genset must have an integrated control system		
4	Integrated control system must include the following parameters: <ul style="list-style-type: none"> • fuel level, • lube-oil level, • Starting battery voltage, • Alarm and Control status displays and functions. 		
5	Integrated control system must incorporate: Local and Remote, starting, stopping, monitoring of engine and generator running and shutdown parameters as listed in 5a-5e. <u>Requirement is for a standard set-up: one controller and a remote annunciator.</u>		
5a	Engine parameters; Starting battery voltage, Lube-oil pressure, Speed, Oil and Cooling Water Temperatures.		
5b	Alternator parameters; Voltage, Current, KVA, Frequency.		
5c	Engine Controls; Low Lube-oil pressure shutdown, Low Lube-oil level anti-start interlock and indicator alarm.		
5d	Genset and general: Enclosure internal temperature at the high-point of the enclosure. Fuel Level indicating system.		

5e	Data logging for engine start attempts and runtime must be incorporated into the control system.		
6	A manual locally operated emergency stop feature that safely interrupts the fuel flow to the engine must be incorporated into the genset IAW UL2200 requirements and be user-operable from outside the enclosure.		
7	A 750 Watt 120 VAC engine block heater, an "intelligent" 120VAC 3 amp battery charger that cannot overcharge the batteries, and suitable starting batteries must be included in the package. <u>Block heater must meet the wattage and amperage limits stated above. Any variance is unacceptable, and will not meet the mandatory requirement.</u>		
8	An integrated muffler system must be included in the package and is to be designed to prevent rain from entering the exhaust system.		
9	<u>Biofuel requirement has been removed from mandatory requirements</u>	<u>n/a</u>	<u>n/a</u>
10	Integrated lifting points must be provided suitable to lift the entire assembly with a full tank of fuel by either forklift or crane		
11	The engine, and enclosure assembly must be liquid cooled and suitable radiators must be provided that will maintain the engine, generator, and enclosure components at a safe temperature while at full load with an outside ambient temperature of 30 degs Celsius.		
12	A complete set (in digital or hardcopy format) of all operating and repair manuals, parts lists, and relevant user-level drawings must be provided for the genset and its components.		
13	All engine and generator fluids and lubes, as recommended by the relevant manufacturers for initial run-in must be provided with the generator set. One full spare set of air and fluid filters must be provided with the generator set. One full spare charge of the manufacturers recommended corrosion inhibitor for the cooling system must be provided with the generator set. This is to provide for the first change after the original run-in period.		
14	The enclosure assembly and provided exhaust system shall provide noise attenuation such that the measured noise level shall be less than 78db under full load condition at a distance of 7 meters from the enclosure.

15	Remote panel must function when mounted inside a building, 50 feet away from the genset – I added this as a mandatory spec. Re-word or remove if not necessary.		
16	Fuel Tank:: The APU must possess a dual-walled CSA/ULC approved sub-base fuel tank with level gauge, low fuel alarm and sufficient capacity to power the unit for 24 hours of non-stop service		

ANNEX "B"**BASIS OF PAYMENT**

PRICING: The price of the bid must be submitted and evaluated in Canadian dollars, the Goods and Services Tax or the Harmonized Sales Tax excluded, Delivery Duty Paid (DDP) **to: Nanoose Bay V9P 9J9**, Incoterms 2000, Canadian custom duties and excise taxes, included.

No further charges will be allowed.

Item	Description	QTY	Price
1	Generator as described in Annex A.	1	\$
2	Lump sum for delivery Delivered Duty Paid (DDP) Nanoose Bay, V9P 9J9 Canada (*)	1	\$
Total Evaluated Price (Excluding Taxes)			\$

(*) If delivery charges do not apply (e.g. charges included in unit price of item 1), please fill in price as zero (\$0), NIL or N/C.

The Contractor must make the complete delivery within 15 weeks from the effective date of the Contract.
