This Tender Amendment No. Four (4) is raised to include the following Addendum No. Four (4).

The following Addendum to the tender is effective immediately. This addendum shall form part of the contract documents.

All other terms and conditions remain the same.

Addendum No. 4.

1. QUESTIONS AND ANSWERS

Q1. Upon our site visit, we noticed all existing control valves or radiator valves are Angle Type while the tender drawings show Straight Type. Is the intent to replace the Angle Type to Straight Type?

A1. Zone valves are to be a one-for-one replacement of existing 'angled' type zone valves with new 'angled' type zone valves, not 'straight' type zone valves as indicated on Detail 1 on Drawing M-02.

Q2. We require a clarification on the type of zone control valves that need to be supplied for the above noted project: the drawings indicate a straight two-way control valve, however, the area that was visited during the site visit had angled type control valves. What type of control valve needs to be supplied? Is it all angled valves or are there some straight valves required?

A2. Please see *A1* above.
