Amendment 009 is issued to provide responses to additional questions received.

Question 35 Can you please confirm that the cable in the W15 assembly is to be 5 conductor 4 AWG as stated in amendment 003 as opposed to the requirement listed in the initial SOW as 5 conductor 6 AWG.

Noting that with the HBL560C9W pin and sleeve assembly the power cord used needs to fall within the clamp range of 0.500" to 1.450"

Answer 35 W15 Cable Assembly should be 5 Conductor # 6AWG as shown in Para 3.2.2 -b.

Question 36 In 3.2.2.1.b: W15 cable assembly description, it states it is #6 AWG. In a response to question 22 of addendum 3, #4 AWG was given as the conductor size. Could you please confirm if W15 is a 5 conductor #6 AWG or 5 conductor #4 AWG.

Answer 36 See response to Question 35

Question 37 We require an elaboration on Addendum 3 Q/A#5. The question asks that due to the high fluctuation in copper pricing that the contractor be allowed to 1) manufacture all of the cable assemblies and 2) DND accept delivery of all of the cable assemblies immediately after acceptance of FPU. The answer provides a positive response to early lock down of the material price and cable manufacture immediately after TA approval of FAU. However, the answer does not provide a response to part 2) of the question. As there is no mechanism for early delivery of the cable assemblies themselves to DND, please confirm that DND will not accept delivery of the cable assemblies alone and that they must be shipped and invoiced as part of the FPDS kits per the line items listed in Annex B, Basis of Payment.

Answer 37 We confirm that DND will not accept delivery of the cable assemblies alone and that they must be shipped and invoiced as part of FPDS Kits as per the line items listed in Annex B, Basis of payment.
