This amendment 007 is raised to answer question of bidders.

ALL OTHER TERMS AND CONDITIONS REMAIN UNCHANGED.

Question 34

In Addendum 4 , Question 20:"Annex A-SOR Section 10.14.1; Does the crown require the T1 interface specified in requirement 10.11.1 to be available on all links supplied, or should it be included as an optional module? Answer 20 - T1 interface must be included in the bid. The item will be called up as required." There were a few questions around this T1 Interface and in the end, what is important to understand from the vendor's view, is whether the T1 interface needs to be present with every radio in the Basis of Payment , line 1.1 & 1.2 or should it appear as an option in , for instance, line 1.15. The answer provided in addendum 4 presents that it needs to be part of line 1.1 & 1.2 but could be ordered on a case by case, which is not feasible unless it has a line for itself in the basis of payment table. So just to ensure clarity, does the T1 interface needs to be part of the Basis of Payment line 1.1 & 1.2 or should it have a separate line to identify it.?

In addendum 5, section 1.9, it's stated that the radio must be supplied in pairs in order to form a link. Should we understand that the Basis of Payment line 1.1 & 1.2 should read radioS rather than radio? Could the crown clarify whether it expect line 1.1 & 1.2 of the Basis of payment to be single radio (i.e. 2 need to be ordered for a full link) or 2 radio (i.e. a full radio link). It would be interesting for the crown to have line 1.1 & 1.2 as single radio, this could allow for radio link to have either 1.1. or 1.2 or a mix of both as not all radio link are identical.

Answer 34

The T1 interface can be a separate line item. We just need to make sure it is available to purchase if and when required.

We are looking to order radios in pairs only at this time.
