List of Annexes:

- | | |
|-----------|------------------|
| Annex "A" | Requirement |
| Annex "B" | Basis of Payment |

PART 1 - GENERAL INFORMATION

1. Security Requirement

There is no security requirement associated with this bid solicitation.

2. Requirement

The requirement is detailed under Article 2 of the resulting contract clauses.

3. Debriefings

Bidders may request a debriefing on the results of the bid solicitation process. Bidders should make the request to the Contracting Authority within 15 working days of receipt of the results of the bid solicitation process. The debriefing may be in writing, by telephone or in person.

PART 2 - BIDDER INSTRUCTIONS

1. Standard Instructions, Clauses and Conditions

All instructions, clauses and conditions identified in the bid solicitation by number, date and title are set out in the *Standard Acquisition Clauses and Conditions Manual* (<https://buyandsell.gc.ca/policy-and-guidelines/standard-acquisition-clauses-and-conditions-manual>) issued by Public Works and Government Services Canada.

Bidders who submit a bid agree to be bound by the instructions, clauses and conditions of the bid solicitation and accept the clauses and conditions of the resulting contract.

The 2003 (2013-06-01) Standard Instructions - Goods or Services - Competitive Requirements, are incorporated by reference into and form part of the bid solicitation.

1.1 SACC Manual Clauses

B1000T	Condition of Material	2007-11-30
--------	-----------------------	------------

2. Submission of Bids

Bids must be submitted only to Public Works and Government Services Canada (PWGSC) Bid Receiving Unit by the date, time and place indicated on page 1 of the bid solicitation.

3. Enquiries - Bid Solicitation

All enquiries must be submitted in writing to the Contracting Authority no later than five (5) calendar days before the bid closing date. Enquiries received after that time may not be answered.

Bidders should reference as accurately as possible the numbered item of the bid solicitation to which the enquiry relates. Care should be taken by bidders to explain each question in sufficient detail in order to enable Canada to provide an accurate answer. Technical enquiries that are of a proprietary nature must be clearly marked "proprietary" at each relevant item. Items identified as "proprietary" will be treated as such except where Canada determines that the enquiry is not of a proprietary nature. Canada may edit the questions or may request that the Bidder do so, so that the proprietary nature of the question is eliminated, and the enquiry can be answered with copies to all bidders. Enquiries not submitted in a form that can be distributed to all bidders may not be answered by Canada.

4. Applicable Laws

Any resulting contract must be interpreted and governed, and the relations between the parties determined, by the laws in force in Alberta.

Bidders may, at their discretion, substitute the applicable laws of a Canadian province or territory of their choice without affecting the validity of their bid, by deleting the name of the Canadian province or territory specified and inserting the name of the Canadian province or territory of their choice. If no change is made, it acknowledges that the applicable laws specified are acceptable to the bidders.

5. Optional Site Visit

It is recommended that the Bidder or a representative of the Bidder visit the work site. Arrangements have been made for a tour of the work site. The site visit will be held on August 20, 2013, at 2:00pm MDT at Canadian Forces Base (CFB) Suffield, Ralston, Alberta. Bidders are requested to communicate with the Contracting Authority two (2) days before the scheduled visit to confirm attendance and provide the name(s) of the person(s) who will attend. Bidders may be requested to sign an attendance form. Bidders who do not attend or send a representative will not be given an alternative appointment but they will not be precluded from submitting a bid. Any clarifications or changes to the bid solicitation resulting from the site visit will be included as an amendment to the bid solicitation.

PART 3 - BID PREPARATION INSTRUCTIONS

1. Bid Preparation Instructions

Canada requests that bidders provide their bid in separately bound sections as follows:

Section I: Financial Bid (one hard copy)

Section II: Certifications (one hard copy)

Prices must appear in the financial bid only. No prices must be indicated in any other section of the bid.

Canada requests that bidders follow the format instructions described below in the preparation of their bid:

- (a) use 8.5 x 11 inch (216 mm x 279 mm) paper;
- (b) use a numbering system that corresponds to the bid solicitation.

In April 2006, Canada issued a policy directing federal departments and agencies to take the necessary steps to incorporate environmental considerations into the procurement process [Policy on Green Procurement](http://www.tpsgc-pwgsc.gc.ca/ecologisation-greening/achats-procurement/politique-policy-eng.html)

(<http://www.tpsgc-pwgsc.gc.ca/ecologisation-greening/achats-procurement/politique-policy-eng.html>). To assist Canada in reaching its objectives, bidders should:

- 1) use 8.5 x 11 inch (216 mm x 279 mm) paper containing fibre certified as originating from a sustainably-managed forest and containing minimum 30% recycled content; and
- 2) use an environmentally-preferable format including black and white printing instead of colour printing, printing double sided/duplex, using staples or clips instead of cerlox, duotangs or binders.

Section I: Financial Bid

Bidders must submit their financial bid in accordance with the Basis of Payment. The total amount of Applicable Taxes must be shown separately.

1.1 Exchange Rate Fluctuation

C3011T (2010-01-11), Exchange Rate Fluctuation

1.2 Prices - Items

Bidders must submit firm prices for all items listed in Annex "B".

Section II: Certifications

Bidders must submit the certifications required under Part 5.

PART 4 - EVALUATION PROCEDURES AND BASIS OF SELECTION

1. Evaluation Procedures

- (a) Bids will be assessed in accordance with the entire requirement of the bid solicitation including the technical and financial evaluation criteria.
- (b) An evaluation team composed of representatives of Canada will evaluate the bids.
- (c) The evaluation team will determine first if there are three (3) or more bids with a valid Canadian Content certification. In that event, the evaluation process will be limited to the bids with the certification; otherwise, all bids will be evaluated. If some of the bids with a valid certification are declared non-responsive, or are withdrawn, and less than three responsive bids with a valid certification remain, the evaluation will continue among those bids with a valid certification. If all bids with a valid certification are subsequently declared non-responsive, or are withdrawn, then all the other bids received will be evaluated.

1.1 Financial Evaluation

The estimated usages listed in Annex "B", line item #4 and #5 are for evaluation purposes only and will not form part of any resulting Contract.

The total aggregate bid price will be calculated by multiplying the unit price for line item #1 by the quantity, multiplying the unit price for line item #4 and #5 by the estimated usage and adding all these values to the quoted price for line item #2 and #3.

SACC Manual Clause A0222T (2013-04-25), Evaluation of Price

2. Basis of Selection

(A0069T, 2007-05-25)

A bid must comply with all requirements of the bid solicitation to be declared responsive. The responsive bid with the lowest evaluated price will be recommended for award of a contract.

PART 5 - CERTIFICATIONS

Bidders must provide the required certifications and documentation to be awarded a contract.

The certifications provided by bidders to Canada are subject to verification by Canada at all times. Canada will declare a bid non-responsive, or will declare a contractor in default, if any certification made by the Bidder is found to be untrue whether during the bid evaluation period or during the contract period.

The Contracting Authority will have the right to ask for additional information to verify the Bidder's certifications. Failure to comply with this request will also render the bid non-responsive or will constitute a default under the Contract.

1. Mandatory Certifications Required Precedent to Contract Award

1.1 Code of Conduct and Certifications - Related documentation

By submitting a bid, the Bidder certifies that the Bidder and its affiliates are in compliance with the provisions as stated in Section 01 Code of Conduct and Certifications - Bid of Standard Instructions 2003. The related documentation therein required will assist Canada in confirming that the certifications are true.

1.2 Federal Contractors Program for Employment Equity - Bid Certification

By submitting a bid, the Bidder certifies that the Bidder, and any of the Bidder's members if the Bidder is a Joint Venture, is not named on the Federal Contractors Program (FCP) for employment equity "FCP Limited Eligibility to Bid" list (http://www.labour.gc.ca/eng/standards_equity/eq/emp/fcp/list/inelig.shtml) available from Human Resources and Skills Development Canada (HRSDC) - Labour's website.

Canada will have the right to declare a bid non-responsive if the Bidder, or any member of the Bidder if the Bidder is a Joint Venture, appears on the "FCP Limited Eligibility to Bid" list at the time of contract award.

2. Additional Certifications Precedent to Contract Award

The certifications listed below should be completed and submitted with the bid, but may be submitted afterwards. If any of these required certifications is not completed and submitted as requested, the Contracting Authority will so inform the Bidder and provide the Bidder with a time frame within which to meet the requirement. Failure to comply with the request of the Contracting Authority and meet the requirement within that time period will render the bid non-responsive.

2.1 Canadian Content Certification

2.1.1 SACC Manual clause

A3050T

Canadian Content Definition

2010-01-11

2.1.2. Canadian Content Certification

(A3062T, 2008-05-12)

This procurement is conditionally limited to Canadian goods.

Subject to the evaluation procedures contained in the bid solicitation, bidders acknowledge that only bids for items with a certification that the item(s) offered are Canadian goods, as defined in clause A3050T, may be considered.

Failure to provide this certification completed with the bid will result in the item(s) offered being treated as non-Canadian goods.

Bidders must clearly identify beside each item listed in the bid solicitation document which items meet the definition of Canadian good and complete the following certification.

The Bidder certifies that:

- () the item(s) offered and identified as Canadian goods are Canadian goods as defined in paragraph 1 of clause A3050T.

PART 6 - RESULTING CONTRACT CLAUSES

1. Security Requirement

There is no security requirement applicable to this Contract.

2. Requirement

The Contractor must provide the items detailed under the "Requirement" at Annex "A".

3. Standard Clauses and Conditions

All clauses and conditions identified in the Contract by number, date and title are set out in the *Standard Acquisition Clauses and Conditions Manual* (<https://buyandsell.gc.ca/policy-and-guidelines/standard-acquisition-clauses-and-conditions-manual>) issued by Public Works and Government Services Canada.

3.1 General Conditions

2010A (2013-04-25), General Conditions - Goods (Medium Complexity), apply to and form part of the Contract.

4. Term of Contract

4.1 Period of the Contract

The period of the Contract is from date of Contract to April 1, 2015 inclusive.

The Contractor must supply and deliver 35 bespoke radio cabinets to CFB Suffield on or before Jan. 17, 2014 (mandatory criteria).

The Contractor grants to Canada the irrevocable option to order up to 15 additional bespoke radio cabinets under the same conditions.

4.2 Option Goods and/or Services

(A0070C, 2007-11-30)

The Contractor grants to Canada the irrevocable option to acquire the goods, services or both described at Annex "A" of the Contract under the same conditions and at the prices and/or rates stated in the Contract. The option may only be exercised by the Contracting Authority and will be evidenced, for administrative purposes only, through a contract amendment.

The Contracting Authority may exercise the option at any time before the expiry of the Contract by sending a written notice to the Contractor.

5. Authorities

5.1 Contracting Authority

The Contracting Authority for the Contract is:

Nicole Levesque-Welch
Supply Specialist

Telephone: 403-292-4716
Facsimile: 403-292-5786
Email: nicole.levesque-welch@pwgsc-tpsgc.gc.ca

The Contracting Authority is responsible for the management of the Contract and any changes to the Contract must be authorized in writing by the Contracting Authority. The Contractor must not perform work in excess of or outside the scope of the Contract based on verbal or written requests or instructions from anybody other than the Contracting Authority.

5.2 Project Authority

The Project Authority for the Contract is:

*****To be determined at contract award*****

The Project Authority is the representative of the department or agency for whom the Work is being carried out under the Contract and is responsible for all matters concerning the technical content of the Work under the Contract. Technical matters may be discussed with the Project Authority, however the Project Authority has no authority to authorize changes to the scope of the Work. Changes to the scope of the Work can only be made through a contract amendment issued by the Contracting Authority.

5.3 Contractor's Representative (To be completed by bidder)

Name _____

Title _____

Address _____

Telephone: _____

Facsimile: _____

E-mail address: _____

6 Payment

6.1 Basis of Payment - Limitation of Expenditure

(C0206C, 2013-04-25)

The Contractor will be reimbursed for the costs reasonably and properly incurred in the performance of the Work, as determined in accordance with the Basis of Payment in Annex "B", to a limitation of expenditure of \$TBD. Customs duties are included and Applicable Taxes are extra.

6.2 Limitation of Expenditure

(C6001C, 2013-04-25)

1. Canada's total liability to the Contractor under the Contract must not exceed \$ TBD. Customs duties are included and Applicable Taxes are extra.
2. No increase in the total liability of Canada or in the price of the Work resulting from any design changes, modifications or interpretations of the Work, will be authorized or paid to the Contractor unless these design changes, modifications or interpretations have been approved, in writing, by the Contracting Authority before their incorporation into the Work. The Contractor must not perform any work or provide any service that would result in Canada's total liability being exceeded before obtaining the written approval of the Contracting Authority. The Contractor must notify the Contracting Authority in writing as to the adequacy of this sum:
 - a. when it is 75 percent committed, or
 - b. four (4) months before the contract expiry date, or
 - c. as soon as the Contractor considers that the contract funds provided are inadequate for the completion of the Work, whichever comes first.
3. If the notification is for inadequate contract funds, the Contractor must provide to the Contracting Authority a written estimate for the additional funds required. Provision of such information by the Contractor does not increase Canada's liability.

6.3 SACC Manual Clauses

C2000C	Taxes - Foreign-based Contractor	2007-11-30
C5201C	Prepaid Transportation Costs (for optional items only)	2008-05-12
H1000C	Single Payment	2008-05-12

7. Invoicing Instructions

1. The Contractor must submit invoices in accordance with the section entitled "Invoice Submission" of the general conditions. Invoices cannot be submitted until all work identified in the invoice is completed.
2. Invoices must be distributed as follows:
 - a. The original and one (1) copy must be forwarded to the address shown on page 1 of the Contract for certification and payment.

8. Certifications**8.1 Compliance**

Compliance with the certifications and related documentation provided by the Contractor in its bid is a condition of the Contract and subject to verification by Canada during the term of the Contract. If the Contractor does not comply with any certification, provide the related documentation or if it is determined that any certification made by the Contractor in its bid is untrue, whether made knowingly or unknowingly, Canada has the right, pursuant to the default provision of the Contract, to terminate the Contract for default.

8.2 SACC Manual Clauses

A3060C	Canadian Content Certification	2008-05-12
--------	--------------------------------	------------

9. Applicable Laws

The Contract must be interpreted and governed, and the relations between the parties determined, by the laws in force in Alberta.

10. Priority of Documents

If there is a discrepancy between the wording of any documents that appear on the list, the wording of the document that first appears on the list has priority over the wording of any document that subsequently appears on the list.

- (a) the Articles of Agreement;
- (b) the general conditions 2010A (2013-04-25), General Conditions - Goods (Medium Complexity);
- (c) Annex "A", Requirement;
- (d) Annex "B", Basis of Payment;
- (e) the Contractor's bid dated TBD.

11. SACC Manual Clauses

B7500C	Excess Goods	2006-06-16
G1005C	Insurance	2008-05-12

ANNEX "A"

REQUIREMENT

1.0 Requirement

For the production and delivery of a minimum of 35 bespoke radio cabinets to be used in the Prairie Support Vehicle fleet (2013 Chevrolet Silverado 2500HD) for the British Army Training Unit Suffield (BATUS), Canadian Forces Base Suffield, Ralston, Alberta during the period of the contract.

2.0 Background

BATUS trains armoured and armoured infantry Battle-Groups (BGs) in the planning and execution of all operations of war, with a view to conducting armoured operations in high intensity war fighting. This aim is achieved through the medium of live firing and Tactical Engagement Simulation (TES) exercises. These exercises are conducted in a harsh environment on demanding terrain and last up to 28 days per exercise.

The principal task of BATUS is to plan and deliver up to 4 exercises per year for BGs to train to collective level standards. The Prairie Thunder exercises incorporate all the operations of war. Each exercise consists of 10 days' of live fire training followed by 12 days' of TES training against an opposing force (OPFOR).

All training, in particular live fire training, is closely controlled for safety reasons. The Safety Staff provide safety cover during live fire training and act as observer/controllers during the TES phase of each exercise. In order to be suitably mobile for this role, Safety Staff utilise a fleet of support vehicles known as Prairie Support Vehicle (PSV). These support vehicles are indigenous North American pickup vehicles and are modified before use in order to provide apposite support. The vehicle is fitted with a UK BOWMAN radio system, a communications system developed by General Dynamics UK and used at BATUS. In addition, the vehicle also has other communication devices such as a tracker box and computer terminal. In order to store all radios safely within the vehicle, a radio cabinet is fitted in lieu of the front passenger seat. The rack is used to securely mount all communications equipment and was developed in-line with earlier generations of the PSV. The rack is manufactured using robust materials and construction techniques in order to withstand the strains caused by continuous repeated cross country driving, often at high speed, across the Prairie.

BATUS has recently placed an order for 142 x Chevrolet Silverado 2500HD to fill the role of PSV from April 2014. This represents an uplift in vehicle quantity; BATUS therefore requires an uplift in all associated modification items - in this case radio cabinets to which this SOW applies.

3.0 Security

The contractor will not be required to handle any restricted communication device within this requisition.

4.0 Tasks & Deliverables

- 4.01. The contractor must supply 35 cabinets matching exactly those already in use at BATUS. A number of photographs of an existing cabinet can be found at Appendix 1. Specific tasks are as follows:
 - a. The contractor must measure exactly an existing cabinet (provided by BATUS) in order to facilitate production of 35 new cabinets. It is requested, but not mandatory, that the computer software 'AutoCAD' be used for all measurements.

-
- b. The contractor must have cabinet components manufactured to allow inter-changeability between newly manufactured cabinet components and current (in-service) cabinet components.
 - c. The contractor must supply each cabinet free of excess material (solder, filings, wire strips, packaging, grease, oils etc).
 - d. The contractor must use 300 series stainless steel hardware in the construction of each cabinet (for example nuts, bolts, washers, star washers, rivnuts, threaded inserts etc).
 - e. The contractor must supply the following mounting items with each cabinet (photographs can be found at Appendix 1):
 - i. 2 x M10 module spacer (Figure 9 of Appendix 1).
 - ii. 2 x M12 module spacer (Figure 7 of Appendix 1).
 - iii. 1 x Square bar module spacer (Figure 8 of Appendix 1).
 - f. The contractor must include all mounting points on each cabinet. These are largely holes drilled on the frame where radios are secured to the vehicle. In addition, the cabinets own mounting parts must be matched exactly to an existing frame in order that it be fitted (with spacers) to the PSV. All required drilled holes will be identified on the sample frame with an "X".
 - g. The contractor must fit a collapsible extension to each cabinet in accordance with the design of the existing cabinet. A photograph of the table required is shown at Figure 6 of Appendix 1.
 - h. The contractor must have the capability to treat the radio cabinet with Chromate Conversion Coating. This treatment will be required on each cabinet when requested.
 - i. The contractor is responsible for collection of the sample radio cabinet from CFB Suffield to their premises.

4.1 Scope of Work

- 4.101. BATUS will supply an existing cabinet to the contractor in order that its measurements and design be copied. BATUS own the intellectual property rights to the current cabinet.
- 4.102. In order to aid contractor planning for this requisition, an 18 inch ruler has been placed next to all photographs at Appendix 1.

Constraints:

- 4.105. Each cabinet must not weigh more than 50kg. This is required to maintain a safe centre of gravity within the vehicle.
- 4.106. The contractor is to use a combination of 316 and 18-8 Stainless Steel with a thickness of 3/16" for the cabinet and spacer parts. Construction materials must match those of existing cabinets.
- 4.107. Each cabinet must not have a resonant frequency greater than 60hz.
- 4.108. Each cabinet must not have electrical continuity greater than 25mΩ from any point on the module to another point on the module.

5.0 Compliance

- 5.01. Intellectual copy rights. Any and all documentation created, modified, received, transmitted, or is in anyway associated to or with the cabinet shall be owned by BATUS.

6.0 Acronyms
