1. Standard Instructions, Clauses and Conditions

All instructions, clauses and conditions identified in the bid solicitation by number, date and title are set out in the Standard Acquisition Clauses and Conditions Manual (<https://buyandsell.gc.ca/policy-and-guidelines/standard-acquisition-clauses-and-conditions-manual>) issued by Public Works and Government Services Canada.

Bidders who submit a bid agree to be bound by the instructions, clauses and conditions of the bid solicitation and accept the clauses and conditions of the resulting contract.

The 2003 (2013-06-01) Standard Instructions - Goods or Services - Competitive Requirements, are incorporated by reference into and form part of the bid solicitation.

Subsections 4 and 5 of Section 01 Code of Conduct and Certifications - Bid, is amended as follows::

4. Bidders who are incorporated or who are a sole proprietorship, including those bidding as a joint venture, have already provided a list of names of all individuals who are directors of the Bidder, or the name of the owner, at the time of submitting an arrangement under the Request for Supply Arrangement (RFSA). These bidders must diligently maintain this list up-to-date by informing Canada in writing of any change occurring during the validity period of the bid as well as during the period of any contract arising from this bid solicitation.
5. Canada may, at any time, request that a Bidder provide properly completed and Signed Consent Forms (Consent to a Criminal Record Verification form - PWGSC-TPSGC 229) for any or all individuals aforementioned within the time specified. Failure to provide such Consent Forms within the time period provided will result in the bid being declared non-responsive.

Subsection 5.4 of 2003, Standard Instructions - Goods or Services - Competitive Requirements, is amended as follows:

Delete: sixty (60) days

Insert: ninety (90) days

1.1 SACC Manual Clauses

THE FOLLOWING TERMS AND CONDITIONS ARE INCORPORATED HEREIN

|----------------|-----------------------|------------|
| B1000T | Condition of Material | 2007-11-30 |
| B3000T | Equivalent Products | 2006-06-16 |

1.2 Substitute Products - Samples (DND)

If the Bidder offers a substitute product, Canada reserves the right to request a sample from the Bidder in order to determine its equivalency in form, fit, function, quality and performance to the item specified in the bid solicitation.

The Bidder must, upon request from the Contracting Authority, provide a sample to the Technical Authority, transportation charges prepaid, and without charge to Canada, within fifteen (15) calendar days from the date of request. The sample submitted by the Bidder will remain the property of Canada and will not be considered as part of the deliverables in any resulting contract. If the sample does not meet the requirements of the bid solicitation or the Bidder fails to comply with the request of the Contracting Authority, the bid will be declared non-responsive.

1.3 Subject To Prior Sale

SUBMISSION OF FIRM DELIVERY IS MANDATORY, THEREFORE IF A PROPOSAL IS MARKED "SUBJECT TO PRIOR SALE" OR IF YOUR PROPOSAL DOES NOT CONFORM TO THE BID VALIDITY PERIOD EXPRESSED HEREIN, YOUR BID WILL BE CONSIDERED NON RESPONSIVE.

1.4 Units of Issue

SUPPLIERS ARE TO PAY PARTICULAR ATTENTION TO THE UNITS OF ISSUE SPECIFIED. IF QUOTING OTHER THAN SPECIFIED PLEASE INDICATE THE UNIT OF ISSUE YOU ARE QUOTING ON.

2. Submission of Bids

Bids must be submitted only to Public Works and Government Services Canada (PWGSC) Bid Receiving Unit by the date, time and place indicated on page 1 of the bid solicitation.

3. Enquiries - Bid Solicitation

All enquiries must be submitted in writing to the Contracting Authority no later than five (5) calendar days before the bid closing date. Enquiries received after that time may not be answered.

Bidders should reference as accurately as possible the numbered item of the bid solicitation to which the enquiry relates. Care should be taken by bidders to explain each question in sufficient detail in order to enable Canada to provide an accurate answer. Technical enquiries that are of a proprietary nature must be clearly marked "proprietary" at each relevant item. Items identified as "proprietary" will be treated as such except where Canada determines that the enquiry is not of a proprietary nature. Canada may edit the questions or may request that the Bidder do so, so that the proprietary nature of the question is eliminated, and the enquiry can be answered with copies to all bidders. Enquiries not submitted in a form that can be distributed to all bidders may not be answered by Canada.

4. Applicable Laws

Any resulting contract must be interpreted and governed, and the relations between the parties determined, by the laws in force in Ontario.

Bidders may, at their discretion, substitute the applicable laws of a Canadian province or territory of their choice without affecting the validity of their bid, by deleting the name of the Canadian province or territory specified and inserting the name of the Canadian province or territory of their choice. If no change is made, it acknowledges that the applicable laws specified are acceptable to the bidders.

5. Delivery

While delivery is requested by December 27, 2013, the best delivery that could be offered is _____.

6. Assurance of NSCM Traceability

ASSURANCE OF NSCM (NATO SUPPLY CODE FOR MANUFACTURER) TRACEABILITY:

For the purposes of this solicitation, the NSCM (one or more) specified in this Request for Proposal (RFP) is the only approved source(s) of supply for the part number it is referenced with.

When the specified part number is proposed for supply by the bidder, the related specified NSCM will only be offered by the bidder if the material to be supplied as the specified part number can be traced with documentary evidence directly to the NATO approved source of supply.

In the event that the bidder proposes to supply, under the specified part number, material which can neither be demonstrated by the bidder as originating directly from the approved source of supply nor as supplied under the specified NSCM with the specific written permission of the approved source of supply, the bidder is obligated to specify the alternate manufacturer for the material proposed under the specified part number and not mention the specified NSCM.

Material supplied for the items specified in any subsequent contract will be subject to investigation by the Crown. Material which can neither be demonstrated by the contractor as having originated directly from the NSCM specified for the item in the contract, nor as supplied with the specific written permission of this specified NSCM, will be subject to the following action by the Crown.

The Crown may either:

- a) terminate the contract for default with respect to that item, return the item to the Contractor at the Contractor's risk and expense, and demand and receive from the Contractor (who will forthwith so pay) all procurement and other costs incurred by the Crown, including any increased costs required for the purpose of expediting production; or
- b) retain the item, and demand and receive from the Contractor (who will forthwith so pay) the difference between the Contractor's costs relating to the item, as determined by the Crown, and the costs which, in the Crown's opinion, the Contractor would have incurred had it obtained and supplied an item which did not differ in any way from that specifically required under the contract.

To assist Canada in reaching its objectives, bidders should:
