This Amendment 002 to Solicitation M4000-400135 is raised to respond to supplier questions as follows:

Supplier Questions:

Q6. The RFP calls for assignment to the RCMP of the right to re- use of the design over potential multiple future sites (Sections 1.1, 1.2.1, 1.1.2). The re-use of the design elsewhere brings up issues of copyright and liability for those future projects. The copyrights can be assigned, and the cost to assign generally calculated based on the number of times the design is re-used.

- a) Is the anticipated number of re-uses of the design limited to the four potential sites mentioned?
- b) If the consultant who prepared the design is not retained to oversee the work on another site, will the RCMP release the original consultant from liability arising from re-use of the plans?
- c) Can we list the cost of the assignment as a disbursement?

A6

- a) No.
- b) Yes.
- c) No the rights for this design are to be included.

Q7. The RFP calls for Geotechnical services to be carried in the fee proposal and charged as a disbursement (2.3.2.1). If we carry a number for Geotechnical services and fully co-ordinate all such services, will the RCMP agree to contract directly with them and then pay via the main contract. This number would also appear as a disbursement.

A7. Yes

Q8. Are proponents required to have the require security clearances prior to submitting a proposal?

A8. No, security clearance is not required to submit a proposal.

Q9. If not prior to submitting the proposal, when is the proponent required to obtain the necessary security clearances?

A9. Clearances will be processed during the evaluation process.

Q10. What us the deadline for questions?

A10. As per SI3 questions must be submitted in writing no later than 10 working days prior to the closing date.

The closing date remains unchanged (2013-08-29).

All other terms and conditions remain the same.
