Title: Request for Supply Arrangement Laboratory Analysis

This amendment #001 is raised to answer questions for solicitation EW479-130790/C as follows:

QUESTION 1: Does the lab have to be able to test for and be accredited for all of the parameters listed in each category? For example, if we can test for most parameters listed in the Water and Waste Water category, but are not able to do a few of them and are not accredited for a few of them does that preclude us from bidding on that category?

ANSWER 1: No, the lab needs only to be accredited for the parameters for which it is offering service. If the lab is not accredited for some parameters this does not preclude them from bidding on that entire category.
