Amendment no. 002 is raised to provide the following Questions and Answers:

Q1. Appendix F PPS Eval. Form PPS-M5: What kind of system or product does DND require to regulate the pressure?

A1. It is up to the bidder to use a product of their choice, which ensures: Internal pressure of the box and its contents must be automatically regulated while the box is in storage and/or transit as prescribed in NATO STANAG – 4280, as required by Para 5.0 Physical Requirements, Sub Para 5.4.

Q2. Appendix F PPS Eval. Form PPS-M17: How important is this clause? We were planning on making the MMOB out of fiberglass to offer better resistant to wear and tear and offer a more robust product in general. Sadly, fiberglass cannot be recycled. We are wondering if being non-compliant to this clause would automatically lead to a rejection.

A2. The materials used in the construction of the MMOB must be recyclable. Failure to comply will result in the bid being declared non-compliant.

ALL OTHER TERMS AND CONDITIONS REMAIN THE SAME.
