All instructions, clauses and conditions identified in the bid solicitation by number, date and title are set out in the *Standard Acquisition Clauses and Conditions Manual* (<https://buyandsell.gc.ca/policy-and-guidelines/standard-acquisition-clauses-and-conditions-manual>) issued by Public Works and Government Services Canada.

Revision to Departmental Name: As this solicitation is issued by RCMP, any reference to Public Works and Government Services Canada or PWGSC or its Minister contained in any term, condition or clause of this solicitation, including any individual SACC clauses incorporated by reference, will be interpreted as reference to RCMP or its Minister.  
Bidders who submit a bid agree to be bound by the instructions, clauses and conditions of the bid solicitation and accept the clauses and conditions of the resulting contract.

The 2003 (2013-06-01) Standard Instructions - Goods or Services - Competitive Requirements, are incorporated by reference into and form part of the bid solicitation.

### 2. Submission of Bids

Bids must be submitted only to Royal Canadian Mounted Police (RCMP) Bid Receiving Unit by the date, time and place indicated on page 1 of the bid solicitation.

Due to the nature of the bid solicitation, bids transmitted by facsimile or by email to the RCMP will not be accepted.

### 3. Enquiries - Bid Solicitation

All enquiries must be submitted in writing to the Contracting Authority no later than seven (7) calendar days before the bid closing date. Enquiries received after that time may not be answered.

Bidders should reference as accurately as possible the numbered item of the bid solicitation to which the enquiry relates. Care should be taken by bidders to explain each question in sufficient detail in order to enable Canada to provide an accurate answer. Technical enquiries that are of a proprietary nature must be clearly marked "proprietary" at each relevant item. Items identified as "proprietary" will be treated as such except where Canada determines that the enquiry is not of a proprietary nature. Canada may edit the questions or may request that the Bidder do so, so that the proprietary nature of the question is eliminated, and the enquiry can be answered with copies

to all bidders. Enquiries not submitted in a form that can be distributed to all bidders may not be answered by Canada.

#### **4. Applicable Laws**

### **PART 3 - BID PREPARATION INSTRUCTIONS**

#### **1. Bid Preparation Instructions**

Canada requests that bidders provide their bid in separately bound sections as follows:

Section I: Technical Bid (1 hard copy)  
Section II: Financial Bid (1 hard copy)  
Section III: Certifications (1 hard copy)

Prices must appear in the financial bid only. No prices must be indicated in any other section of the bid.

Canada requests that bidders follow the format instructions described below in the preparation of their bid:

- (a) use 8.5 x 11 inch (216 mm x 279 mm) paper;
- (b) use a numbering system that corresponds to the bid solicitation.

In April 2006, Canada issued a policy directing federal departments and agencies to take the necessary steps to incorporate environmental considerations into the procurement process Policy on Green Procurement (<http://www.tpsgc-pwgsc.gc.ca/ecologisation-greening/achats->

procurement/politique-policy-eng.html). To assist Canada in reaching its objectives, bidders should:

- 1) use 8.5 x 11 inch (216 mm x 279 mm) paper containing fibre certified as originating from a sustainably-managed forest and containing minimum 30% recycled content; and
- 2) use an environmentally-preferable format including black and white printing instead of colour printing, printing double sided/duplex, using staples or clips instead of cerlox, duotangs or binders.

**Section I: Technical Bid**

In their technical bid, bidders should explain and demonstrate how they propose to meet the requirements and how they will carry out the work (reference pre-award sample, Part 4, Evaluation Procedures, 1.1.1 Mandatory Technical Criteria).

**Section II: Financial Bid**

C3011T (2010-01-11), Exchange Rate Fluctuation

**Section III: Certifications**

Bidders must submit the certifications required under Part 5.

**PART 4 - EVALUATION PROCEDURES AND BASIS OF SELECTION**

**1. Evaluation Procedures**

- (a) Bids will be assessed in accordance with the entire requirement of the bid solicitation including the technical and financial evaluation criteria.
- (b) An evaluation team composed of representatives of Canada will evaluate the bids.
- (c) The evaluation team will determine first if there are three (3) or more bids with a valid Canadian Content certification. In that event, the evaluation process will be limited to the bids with the certification; otherwise, all bids will be evaluated. If some of the bids with a valid certification are declared non-responsive, or are withdrawn, and less than three responsive bids with a valid certification remain, the evaluation will continue among those bids with a valid certification. If all bids with a valid certification are subsequently declared non-responsive, or are withdrawn, then all the other bids received will be evaluated.

**1.1 Technical Evaluation**

**1.1.1 Mandatory Technical Criteria**

As part of the technical evaluation, to confirm a Bidder's capability of meeting the technical requirements, one (1) pre-award sample of each of the following items will be required:

1. Jacket, Blue, All Ranks, Male - Size 40 R
2. Jacket, Blue, All Ranks, Female - Size 38 (12) R

**Pre-award samples** along with **Certificates of Compliance/Product Test Data and Component Samples** will be required after the bid closing date, upon a written request from the Contracting Authority, from the four (4) lowest bidders. Should the four (4) lowest bidders not be technically compliant, the next four (4) lowest bidders will be requested to submit pre-award samples, and so on until a technically compliant bid is found.

**The requirement for pre-contract award samples may be waived if the bidder has:**

a) Submitted a pre-contract award sample of the item(s) on a previous requirement or through a separate pre-qualification process by the RCMP Technical Authority, to the latest specification and where the pre-contract award sample was found to be compliant. Bidders may be requested to submit a copy of the evaluation report to validate compliance.

If the above has been met, the bidder must sign this representation and warrants that no significant changes have occurred in their manufacturing processes or their organization since the last award or pre-award qualification, which could affect the manufacturing of the referenced item.

\_\_\_\_\_  
**Signature**

\_\_\_\_\_  
**Date**

The Bidder must ensure that the required pre-award samples are manufactured in accordance with the technical requirement and are fully representative of the bid submitted. Rejection of the pre-award samples will result in the bid being declared non-responsive.

An RCMP viewing sample will be provided to bidders who are requested to provide pre-award samples and is to be used for guidance for all factors not covered by the RCMP specification. The RCMP specification shall govern.

**The viewing sample is not to be damaged or cut, but returned in the same condition as sent to the bidder.**

The bidders must deliver the required pre-award samples, certificates of compliance/product test data, and component samples at no charge to Canada and must ensure that they are received within **45 calendar days** from request. Failure to submit the required pre-award samples, certificates of compliance, product test data, and component samples within the specified time frame will result in the bid being declared non-responsive. The samples submitted by the bidders will remain the property of Canada.

**Certificates of Compliance/Product Test Data for the following properties are required as defined herein:**

**Reference specification G.S. 1045-358, dated 2013-06-12**

1. The Lining - paragraph 4.1.3.1 and Table 1 of the specification. (If other than style 1931 from "Monterey Textiles" is to be used, tests will be required in accordance to Table 1 of the specification)

2. The Thread - paragraphs 4.1.9.1, 4.1.9.2 and 4.1.9.3

The pre-award samples and component samples will be evaluated for quality of workmanship and conformance to specified materials and measurements. Minor observations will not be a reason to reject the sample(s) unless, in the opinion of the technical evaluator(s), they are considered to render the item unserviceable. However, only one deviation will result in the bid being declared non-responsive.

The requirement for pre-award samples, certificates of compliance/product test data, and component samples will not relieve the successful bidder from submitting sample(s), certificates of compliance, product test data and component samples as required by the contract terms or from strictly adhering to the technical requirement of this Request for Proposal and any resultant contract.

**Component Samples for the following items are required:**

1. Fusible interlining – one (1) sample on its own and one (1) sample fused to the shell material – paragraph 4.1.4
2. Chest Piece – paragraph 4.1.5
3. Sleeve Head Pads – paragraph 4.1.6
4. Shoulder Pads – paragraph 4.1.7
5. Under Collar Stiffener – paragraph 4.3.6

Refer to pg. 23 of Specification G.S. 1045-358 for further clarification.

**Certificate of Compliance - Definition**

A certificate of compliance is defined for this solicitation as a signed and dated certification by an appropriate official of the component manufacturer (e.g. slide fastener, hook and loop, webbing, etc.). It must specifically address the adherence of the offered component to the specification or manufacturing data of the technical requirement.

A separate certificate of compliance is required for each individual product or component. It must be dated within eighteen (18) months of the solicitation posting date; and must certify that the product for which the Certificate of Compliance was issued is the same product used in the bid submission, or in the pre-award samples or in the pre-production samples, or in the production units as applicable.

The Bidder is to note that copies of invoices, purchase orders and Certificates of Compliance for products or components that are not manufactured by the certifier are not suitable for use as a Certificate.

Refer to pg. 22 of Specification G.S. 1045-358 for further clarification.

**Test Report Definition**

Refer to pg. 22 of Specification G.S. 1045-358 for a definition.

**1.2 Financial Evaluation**

The price of the bid will be evaluated in Canadian dollars, the Goods and Services Tax or the Harmonized Sales Tax excluded, DDP Ottawa, Ontario Incoterms 2000, transportation costs included, Canadian customs duties and excise taxes included.

## **2. Basis of Selection**

A bid must comply with the requirements of the bid solicitation and meet all mandatory technical evaluation criteria to be declared responsive. The responsive bid with the lowest evaluated price will be recommended for award of a contract (1 contract only).

Evaluation will be established using the firm quantity, made-to-measure quantities, the flexible stock quantity, and the optional quantity.

## **PART 5 - CERTIFICATIONS**

Bidders must provide the required certifications and related documentation to be awarded a contract. Canada will declare a bid non-responsive if the required certifications and related documentation are not completed and submitted as requested.

Compliance with the certifications bidders provide to Canada is subject to verification by Canada during the bid evaluation period (before award of a contract) and after award of a contract. The Contracting Authority will have the right to ask for additional information to verify bidders' compliance with the certifications before award of a contract. The bid will be declared non-responsive if any certification made by the Bidder is untrue, whether made knowingly or unknowingly. Failure to comply with the certifications, to provide the related documentation or to comply with the request of the Contracting Authority for additional information will also render the bid non-responsive.

### **1. Mandatory Certifications Required Precedent to Contract Award**

#### **1.1 Code of Conduct and Certifications - Related documentation**

By submitting a bid, the Bidder certifies, for himself and his affiliates, to be in compliance with the code of Conduct and Certifications clause of the Standard instructions. The related documentation hereinafter mentioned will help Canada in confirming that the certifications are true. By submitting a bid, the Bidder certifies that it is aware, and that its affiliates are aware, that Canada may request additional information, certifications, consent forms and other evidentiary elements proving identity or eligibility. Canada may also verify the information provided by the Bidder, including the information relating to the acts or convictions specified herein, through independent research, use of any government resources or by contacting third parties. Canada will declare non-responsive any bid in respect of which the information requested is missing or inaccurate, or in respect of which the information contained in the certifications is found to be untrue, in any respect, by Canada. The Bidder and any of the Bidder's affiliates will also be required to remain free and clear of any acts or convictions specified herein during the period of any contract arising from this bid solicitation.

### **2. Additional Certifications Precedent to Contract Award**

The certifications listed below should be completed and submitted with the bid, but **may** be submitted afterwards. If any of these required certifications are not completed and submitted as requested, the Contracting Authority will so inform the Bidder and provide the Bidder with a time

frame within which to meet the requirement. Failure to comply with the request of the Contracting Authority and meet the requirement within that time period will render the bid non-responsive.
