---

This solicitation amendment 002 is raised to answer bidder's questions.

---

**QUESTION 2:**

Is it possible to get the specs of the part as well as either a drawing of it or a picture of it?

**ANSWER:**

Both the 4 station and 5 station are assembled together as a unit.

These valve assemblies are set and properly blanked for operation at PALL (Canada) LTD, now PNEUMATIC PRODUCTS CANADA. If ordering from Numatics, station blanking kits and blanking plugs will be required to complete the assembly. I do not have a drawing which shows the configuration of the blanking plugs as designed by PALL.

The four station manifold consists of; 2 End Plate Kits, 2 - 2 Position manifold kits, and 1 Blocking Disc Kit (installed in the 'P' gallery between the manifold blocks). The five station manifold consists of; 2 End Plate Kits, 1 - 2 Position manifold kit, 1 - 3 Position manifold kit, and 1 Blanking Kit (which can be installed at any station in the assembly).

**ALL OTHER TERMS AND CONDITIONS REMAIN THE SAME.**
