There is no security requirement associated with the requirement.

### 2. **Requirement**

The requirement is detailed under the "Line Item Detail".

### 3. **Debriefings**

After contract award, bidders may request a debriefing on the results of the bid solicitation process. The debriefing may be in writing, by telephone or in person.

## PART 2 - BIDDER INSTRUCTIONS

### 1. Standard Instructions, Clauses and Conditions

All instructions, clauses and conditions identified in the bid solicitation by number, date and title are set out in the Standard Acquisition Clauses and Conditions Manual (<https://buyandsell.gc.ca/policy-and-guidelines/standard-acquisition-clauses-and-conditions-manual>) issued by Public Works and Government Services Canada.

Bidders who submit a bid agree to be bound by the instructions, clauses and conditions of the bid solicitation and accept the clauses and conditions of the resulting contract.

### 2. Submission of Bids

Bids must be submitted only to Public Works and Government Services Canada (PWGSC) Bid Receiving Unit by the date, time and place indicated on page 1 of the bid solicitation.

### 3. Enquiries - Bid Solicitation

All enquiries must be submitted in writing to the Contracting Authority no later than five (5) calendar days before the bid closing date. Enquiries received after that time may not be answered.

Bidders should reference as accurately as possible the numbered item of the bid solicitation to which the enquiry relates. Care should be taken by bidders to explain each question in sufficient detail in order to enable Canada to provide an accurate answer. Technical enquiries that are of a proprietary nature must be clearly marked "proprietary" at each relevant item. Items identified as "proprietary" will be treated as such except where Canada determines that the enquiry is not of a proprietary nature. Canada may edit the questions or may request that the Bidder do so, so that the proprietary nature of the question is eliminated, and the enquiry can be answered with copies to all bidders. Enquiries not submitted in a form that can be distributed to all bidders may not be answered by Canada.

**6. Assurance of NSCM Traceability****ASSURANCE OF NSCM (NATO SUPPLY CODE FOR MANUFACTURER) TRACEABILITY:**

For the purposes of this solicitation, the NSCM (one or more) specified in this Request for Proposal (RFP) is the only approved source(s) of supply for the part number it is referenced with.

When the specified part number is proposed for supply by the bidder, the related specified NSCM will only be offered by the bidder if the material to be supplied as the specified part number can be traced with documentary evidence directly to the NATO approved source of supply.

In the event that the bidder proposes to supply, under the specified part number, material which can neither be demonstrated by the bidder as originating directly from the approved source of supply nor as supplied under the specified NSCM with the specific written permission of the approved source of supply, the bidder is obligated to specify the alternate manufacturer for the material proposed under the specified part number and not mention the specified NSCM.

Material supplied for the items specified in any subsequent contract will be subject to investigation by the Crown. Material which can neither be demonstrated by the contractor as having originated directly from the NSCM specified for the item in the contract, nor as supplied with the specific written permission of this specified NSCM, will be subject to the following action by the Crown.

The Crown may either:

- a) terminate the contract for default with respect to that item, return the item to the Contractor at the Contractor's risk and expense, and demand and receive from the Contractor (who will forthwith so pay) all reprourement and other costs incurred by the Crown, including any increased costs required for the purpose of expediting production; or
- b) retain the item, and demand and receive from the Contractor (who will forthwith so pay) the difference between the Contractor's costs relating to the item, as determined by the Crown, and the costs which, in the Crown's opinion, the Contractor would have incurred had it obtained and supplied an item which did not differ in any way from that specifically required under the contract.

## PART 3 - BID PREPARATION INSTRUCTIONS

To assist Canada in reaching its objectives, bidders should:
