This amendment number one (01) is raised to respond to a bidder question:

1. Question:

The timeline shown for the completion of this project is by March 31, 2014. Given the winter weather conditions of the site, the field works may not be completed and as such, it would be impossible to complete the DSR by the deadline. Is there any consideration to extend completion of the project by at least four (4) to five (5) months, ending in August, 2014?

Answer:

An extension to the contract is possible and will be dealt with accordingly if required by weather delays.

All other terms and conditions remain the same.
