This Tender Amendment No. Eleven (11) is raised to include the following Addendum No. Eleven (11).

The following Addendum to the tender is effective immediately. This addendum shall form part of the contract documents.

All other terms and conditions remain the same.

Addendum No. 11.

1. SPECIFICATIONS - ARCHITECTURAL

Amendment No. 4 (2013-09-17) -Specification Section 09 68 00, Article 2.2.1 - Add:

- premium branded type 6 nylon.
- pile height should have a range 2.3 mm to 4.3 mm.
- pile density minimum 5400.
- stitches should have a range 12 to 14 per inch or 47 to 56 ends/10 cm
- secondary backing, include glass reinforced thermoplastic olefin.

2. QUESTIONS AND ANSWERS

Q1: Will extensive building modifications be allowed as necessary to accommodate new MRL elevator equipment? I have looked at our product as well as another vendor's product with the same conclusion; that new MRL elevator equipment will necessitate increasing the hoist-way overhead and/or pit depth by up to twelve inches. Changes to the existing elevator hoist-way will include the addition of a 'top-hat' above the shaft and increasing the depth of the pit by one foot or possibly work with the existing pit depth after requesting and being granted a safety code variance by the provincial department of technical inspection.

A1: The elevator equipment requested to be installed must be able to fit inside the existing hoist way enclosure.
