Solicitation Amendment Four (4) is issued to publish a Question and Answer:

Question 13:

In support of this bid submission, we have manufactured a CADPAT prototype of our TAC 6 standard product. With reference to Annex A Section 3.3.3 (Colour), para 3.3.3.1.2, could you confirm that our prototype is an acceptable solution for CF EOD operators required to clear unexploded ordnance (UXO) and Improvised Explosive Devices (IEDs) and meets the requirements of the SOW of this RFP? Please refer to the enclosed photos.

Answer 13:

Canada can not provide pre-approval of this product based on photographic evidence, as the requirements laid out in Appendix 3 to Annex A, CADPAT(tm) (TW), are quite broad and will require inspection and approval by DND textile subject matter experts. As part of the contract, DND will verify product compliance (for both colour and Infra-red Reflectance) with the Appendix 3 to Annex A, CADPAT(tm) (TW), and Appendix 4 to Annex A, CADPAT(tm) (AR), by reviewing testing data and pattern samples, as per specification requirements.

Testing data and pattern samples shall only be expected after contract award, as was specified by Annex B Contract End Items List paragraph 1.1.3, and further described in Appendix 3 to Annex A, CADPAT(tm) (TW), and Appendix 4 to Annex A, CADPAT(tm) (AR), specifically paragraph 4.3.

Although the provision of testing data is already implied, Annex B Contract End Items List will be amended to include the additional requirement of testing data: Annex B paragraph 1.1.3.2 Temperate Woodland CADPAT(tm) (IAW Appendix 3 to Annex A, CADPAT(tm) (TW)) and Arid CADPAT(tm) (IAW Appendix 4 to Annex A, CADPAT(tm) (AR)) test data/results as per specification requirements, shall be supplied to DND for validation after contract award but before first delivery.

All other terms and conditions remain unchanged.

CONTRACT END ITEM LIST
FOR
TACTICAL LIGHTWEIGHT BOMB (TLB) SUIT
