This amendment 002 is raised to provide questions with answers to potential bidders as follows:

Question 8:

Are you looking for 2 cutting attachments? You pointed out that Slashbuster was an acceptable product. Does Slashbuster supply both the Rotary Cutter and the Mulching attachment or are you looking for a Mulcher Attachment to go on the Rotary Cutter?

We have used ProMac which is a Canadian based manufacturer in British Columbia. Do you accept their product as equivalent to the Slashbuster?

Response 8:

Configuration B requires two separate attachments, A Rotary Cutter and a Mulching Attachment. Configuration C requires one attachment, the Rotary Cutter.

The Slashbuster was provided as an example of the style of cutter we are looking in a Rotary Cutter as described in paragraph 3.5.2(f). This model and any other makes and models will be deemed compliant so long as they meet or exceed the requirements outlined in paragraph 3.5.2 (f) and sufficient technical data is provided with the bid package.

The ProMac Rotary Brushcutter equipped with a mulching disc is in line with the requirements for the Rotary Cutter. Additional technical data is required to show compliance to paragraph 3.5.2 (f).

The ProMac Horizontal Shaft cutter equipped with a fixed tooth drum is in line with the description for a Mulching Attachments. Additional technical data is required to show compliance to paragraph 3.5.2 (g).

All other terms and conditions remain the same.
