Amendment 1:

This amendment is raised to answer questions from a potential bidder.

All questions and answers will be consolidated to the Annex "E" of the RFP - Bidder Questions and Canada Responses, part of the resulting contract.

Question 1:

With regard to the compliancy of the potential supply of the cabin doors (3 in total) per 11.2 CABIN REQUIREMENTS. TP1332 refers to ISO:12216-2002 requirements for small craft windows and doors. The side and aft door locations would be classified as Area III as per Annex "A" of the ISO document. Will there be a deliverable requirement for calculations or certification verifying that the supplied doors meet the standard?

Technical Authority response: There is no requirement for a deliverable, however at final construction inspection a water test must be conducted by the builder, witnessed by the Technical Authority to verify compliance.

Question 2:

Will the watertightness requirement - Level 3 as per Table 1 of the standard - be required to be met (Annex D.1.2.1 watertightness test is a hose test for 3 minutes and less than 1/2 liter of leakage)? Please confirm.

Technical Authority response: At final construction inspection a water test must be conducted by the builder, witnessed by the Technical Authority to verify compliance.

ALL OTHER TERMS AND CONDITIONS REMAINS THE SAME.
