Addendum No. 1

**QUESTION AND ANSWER**

**Q1:** I would like to have clarification on the perimeters of a service call for CFB Gagetown and detachment Moncton. What would be the scope of the work expected on a service call?

**A1:** The majority of the service work is to repair the deficiencies picked up on the Thermal Vision and Transformer Inspection. They may be called to perform all, some or none of these items found on the inspection. The Shops here generally fix what they have time for and the rest may be sent for the Contractor to do.

Outside of these repairs, throughout the year you may see a blown transformer, disconnection of a transformer due to removal of a building, repair/replace secondary's that fail between inspections.
