This Addendum is raised to provide the following answers to questions provided by bidders. The following changes in the tender documents are effective immediately. This addendum will form part of the contract documents.

## **SC01 - Insurance Terms**

### **Question 1**

Type 1 – Fixed Site coverage. This is not CPL rather it's a different type of policy that is normally purchased by the owner of a building or site. Will this requirement be removed from the specs? In order to purchase fixed site coverage, an insurer would require considerable details on the site itself.

### **Answer 1**

This type provides coverage for Third party bodily injury or property damage and clean-up costs arising out of transported waste and other pollutants. It will not be removed from the requirements.

### **Question 2**

Type 4 – Contractors Professional Liability. Often this type of coverage is carried by design professionals, as it is more of an 'errors and omissions' type of coverage. Most standard contractors carry Commercial General Liability. Can you kindly clarify what type of coverage form this refers to, and if it will also be required.

### **Answer 2**

This is an Errors & Omissions/Professional Liability Insurance coverage. It provides coverage for losses to third parties (Canada) caused by negligence in the rendering or in the failure to render professional services. And professional services are not limited to only designing aspect. In this case, Contractors Professional Liability is required because of the nature of the tasks to be done, specifically asbestos and hazardous waste removal. Based on our practices, this type of insurance has to be required under the Environmental Impairment Liability Insurance. It is specifically linked to environmental services.
