2. Summary

Canada has a requirement to establish Regional Master Standing Offer(s) for the supply of various Original Equipment Manufacturer (OEM); Compatible; and Remanufactured imaging consumables such as toner cartridges, maintenance kits, drums and fusers etc., for use by all Federal Government Departments and Agencies, on an "as and when requested" basis. An Offeror may offer either OEM, Compatible or Remanufactured imaging consumables, or any combination thereof. Resulting RMSOs will be valid for 12 months from the date of issuance (unless PWGSC determine in its sole discretion, to set aside this procurement vehicle), with Canada retaining the right to request up to two extensions of up to 12 months each.

There are two (2) separate solicitation documents published on GETS for this requirement; one (1) solicitation document EZ107-120002/A aimed at the general industry and one (1) under the aboriginal

set-aside EZ107-120002/B. If Offerors are eligible and choose to make an offer on both requirements, they must submit separate proposals for each solicitation.

During the Standing Offer Period, Offerors will have the opportunity to refresh their prices every two months, providing that refreshes offer equal or better value to Canada. Canada reserves the right to revise this time period if necessary.

Offerors are encouraged to submit any questions they have regarding the bidding or evaluation process or the resulting Standing Offer or Contract clauses to the Standing Offer Authority identified in the solicitation in the Article entitled "Enquiries - RFSO".

After any resulting Standing Offers have been issued, all offerors will be notified in writing regarding the outcome of this solicitation.

This procurement is set aside from the international trade agreements under the provision each has for set-asides for small and minority businesses.

3. Security Requirement

The security classification of this Standing Offer is "UNCLASSIFIED". However, the Offeror must treat as confidential, during as well as after the provision of goods or services contracted for, any information of a character confidential to the affairs of Canada, to which the Offeror's servants or agents become privy. All personnel assigned to provide services must have a current security clearance to the level specified in any Call-up against this Standing Offer, granted by the Corporate and International Industrial Security Directorate.

Should it become necessary, during the course of the service, for the authorized Department to invoke further security measures, the Offeror, in accepting a Contract, must comply with the security classification established at that time.

4. Debriefings

After issuance of a standing offer, Offerors may request a debriefing on the results of the request for standing offers process. Offerors should make the request to the Standing Offer Authority within 15 working days of receipt of the results of the request for standing offers process. The debriefing may be in writing, by telephone or in person.

PART 2 - OFFEROR INSTRUCTIONS

1. Standard Instructions, Clauses and Conditions

All instructions, clauses and conditions identified in the Request for Standing Offers (RFSO) by number, date and title are set out in the (<https://buyandsell.gc.ca/policy-and-guidelines/standard-acquisition-clauses-and-conditions-manual>) issued by Public Works and Government Services Canada.

Offerors who submit an offer agree to be bound by the instructions, clauses and conditions of the RFSO and accept the clauses and conditions of the Standing Offer and resulting contract(s).

The 2006 (2013-06-01) Standard Instructions - Request for Standing Offers - Goods or Services - Competitive Requirements, are incorporated by reference into and form part of the RFSO.

Subsection 5.4 of 2006, Standard Instructions - Request for Standing Offers - Goods or Services - Competitive Requirements, is amended as follows:

Delete: sixty (60) days

Insert: one hundred and twenty (120) days

1.1 SACC Manual Clauses

These clauses are incorporated by reference:

SACC Reference	Section	Date
C3011T	Exchange Rate Fluctuation	2010-01-11
W0002D	Delivery Requirements Outside a CLCSA	2000-12-01

2. Submission of Offers

Offers must be submitted only to Public Works and Government Services Canada (PWGSC) Bid Receiving Unit by the date, time and place indicated on page 1 of the Request for Standing Offers.

Due to the nature of the Request for Standing Offers, transmission of offers by facsimile to PWGSC will not be accepted.

In the instance where modifications to the RFSO require a revised response, PWGSC will advise of the acceptable mode of transmission if different from the method indicated.

Offerors may submit an offer for one (1) or more of the following Region(s). The Regions (excluding Comprehensive Land Claims Settlement Areas) are defined as:

National Capital Region (NCR)

Ontario Region (excluding NCR)

Quebec Region (excluding NCR)

Atlantic Region (Newfoundland / Labrador, Nova Scotia, Prince Edward Island (PEI) and New Brunswick)

Western Region (Manitoba, Saskatchewan, Alberta)

Pacific Region (British Columbia)

3. Enquiries - Request for Standing Offers

All enquiries must be submitted in writing to the Standing Offer Authority no later than fifteen (15) calendar days before the Request for Standing Offers (RFSO) closing date. Enquiries received after that time may not be answered.

Offerors should reference as accurately as possible the numbered item of the RFSO to which the enquiry relates. Care should be taken by Offerors to explain each question in sufficient detail in order to enable Canada to provide an accurate answer. Technical enquiries that are of a proprietary nature must be clearly marked "proprietary" at each relevant item. Items identified as "proprietary" will be treated as such except where Canada determines that the enquiry is not of a proprietary nature. Canada may edit the questions or may request that Offerors do so, so that the proprietary nature of the question is eliminated, and the enquiry can be answered with copies to all Offerors. Enquiries not submitted in a form that can be distributed to all Offerors may not be answered by Canada.

4. Applicable Laws

The Standing Offer and any contract resulting from the Standing Offer must be interpreted and governed, and the relations between the parties determined, by the laws in force in British Columbia.

Offerors may, at their discretion, substitute the applicable laws of a Canadian province or territory of their choice without affecting the validity of their offer, by deleting the name of the Canadian province or territory specified and inserting the name of the Canadian province or territory of their choice. If no change is made, it acknowledges that the applicable laws specified are acceptable to the Offerors

PART 3 - OFFER PREPARATION INSTRUCTIONS

1. Offer Preparation Instructions

Canada requests that Offerors provide their offer in separately bound sections as follows:

- Section I: Technical Offer, two (2) hard copies and one (1) soft copy on CD or DVD or Flash Drive
- Section II: Financial Offer: two (2) hard copies and one (1) soft copy on CD or DVD or Flash Drive
- Section III: Certifications, one (1) hard copy

If there is a discrepancy between the wording of the soft copy and the hard copy, the wording of the hard copy will have priority over the wording of the soft copy.

Prices must appear in the financial offer only. No prices must be indicated in any other section of the offer.

Canada requests that Offerors follow the format instructions described below in the preparation of their offer.

- (a) use 8.5 x 11 inch (216 mm x 279 mm) paper;
- (b) use a numbering system that corresponds to that of the Request for Standing Offers.

In April 2006, Canada issued a policy directing federal departments and agencies to take the necessary steps to incorporate environmental considerations into the procurement process (<http://www.tpsgc-pwgsc.gc.ca/ecologisation-greening/achats-procurement/politique-policy-eng.html>). To assist Canada in reaching its objectives, Offerors should:

- 1) use 8.5 x 11 inch (216 mm x 279 mm) paper containing fibre certified as originating from a sustainably-managed forest and containing minimum 30% recycled content; and
- 2) use an environmentally-preferable format including black and white printing instead of colour printing, printing double sided/duplex, using staples or clips instead of cerlox, duotangs or binders.

Section I: Technical Offer

In their technical offer, Offerors should explain and demonstrate how they propose to meet the requirements and how they will carry out the Work.

- (a) The Offeror must complete the Product and Pricing Spreadsheet (Attachment 1).
- (b) The Offeror must submit a company profile which demonstrates that they have the ability to perform the full scope of the work as described in the requirement. This company profile should include but not necessarily be limited to:

- Company History

- Description of the company's inventory and warehousing infrastructure;
- Ability to Offer bilingual representatives (in designated regions);
- Description of their order management and tracking system;
- The nature of their participation in "Green" initiatives, if any; and
- Compliance to Annex A and Annex B.

Section II: Financial Offer

Offerors must submit their financial offer in accordance with Attachment 1 – Product and Pricing Spreadsheet. The total amount of Applicable Taxes must be shown separately, if applicable.

A) Payment by Credit Card

Canada requests that Offerors complete one of the following:

- (a) ☐ Government of Canada Acquisition Cards (credit cards) will be accepted for payment of call-ups against the standing offer.

The following credit card(s) are accepted:

VISA _____

Master Card _____

- (b) ☐ Government of Canada Acquisition Cards (credit cards) will not be accepted for payment of call-ups against the standing offer.

The Offeror is not obligated to accept payment by credit card.

Acceptance of credit cards for payment of call-ups will not be considered as an evaluation criterion.

Section III: Certifications

Offerors must submit the certifications required under Part 5.

PART 4 - EVALUATION PROCEDURES AND BASIS OF SELECTION

1. Evaluation Procedures

- (a) Offers will be assessed in accordance with the entire requirement of the Request for Standing Offers including the technical and financial evaluation criteria.
- (b) An evaluation team composed of representatives of Canada will evaluate the offers. Not all members of evaluation team will necessarily participate in all aspects or evaluations.
- (c) Evaluation Procedures for Procurement Conditionally Limited to Canadian Content

The evaluation team will determine first if there are three (3) or more bids with a valid Canadian content certification. In that event, the evaluation process will be limited to the bids with the certification;

otherwise, all bids will be evaluated. If some of the bids with a valid certification are declared non-responsive, or are withdrawn, and less than three responsive bids with a valid certification remain, the evaluation will continue among those bids with a valid certification. If all bids with a valid certification are subsequently declared non-responsive, or are withdrawn, then all the other bids received will be evaluated.

1.1 Technical Evaluation

Offers must meet all of the mandatory requirements as described within this RFSO.

1.2 Financial Evaluation

The Financial Evaluation is described in Annex C "Evaluation and Basis of Selection".

2. Basis of Selection

The Basis of Selection is described in Annex C "Evaluation and Basis of Selection".

PART 5 - CERTIFICATIONS

Offerors must provide the required certifications and related documentation to be issued a standing offer. Canada will declare an offer non-responsive if the required certifications and related documentation are not completed and submitted as requested.

Compliance with the certifications offerors provide to Canada is subject to verification by Canada during the offer evaluation period (before issuance of a standing offer) and after issuance of a standing offer. The Standing Offer Authority will have the right to ask for additional information to verify offerors' compliance with the certifications before issuance of a standing offer. The offer will be declared non-responsive if any certification made by the Offeror is untrue, whether made knowingly or unknowingly. Failure to comply with the certifications, to provide the related documentation or to comply with the request of the Standing Offer Authority for additional information will also render the offer non-responsive.

1. Mandatory Certifications Required Precedent to Issuance of a Standing Offer

1.1 Code of Conduct and Certifications - Related documentation

By submitting an offer, the Offeror certifies as per section 01 of Standard Instructions 2006 for himself and his affiliates, to be in compliance with the Code of Conduct and Certifications clause of the Standard instructions. The related documentation therein required will help Canada in confirming that the certifications are true.

1.2 Federal Contractors Program for Employment Equity - Bid Certification

By submitting a bid, the Bidder certifies that the Bidder, and any of the Bidder's members if the Bidder is a Joint Venture, is not named on the Federal Contractors Program (FCP) for employment equity "FCP Limited Eligibility to Bid" list (<http://www.hrsdc.gc.ca/eng/labour/index.shtml>) available from Human Resources and Skills Development Canada (HRSDC) - Labour's website

Canada will have the right to declare a bid non-responsive if the Bidder, or any member of the Bidder if the Bidder is a Joint Venture, appears on the "FCP Limited Eligibility to Bid" list at the time of contract award.

Canada will also have the right to terminate the Contract for default if a Contractor, or any member of the Contractor if the Contractor is a Joint Venture, appears on the "FCP Limited Eligibility to Bid" list during the period of the Contract.

The Bidder must provide the Contracting Authority with a completed annex Federal Contractors Program for Employment Equity - Certification, before contract award. If the Bidder is a Joint Venture, the Bidder must provide the Contracting Authority with a completed annex Federal Contractors Program for Employment Equity - Certification, for each member of the Joint Venture.

2. Additional Certifications Precedent to Issuance of a Standing Offer

The certifications listed below should be completed and submitted with the offer, but may be submitted afterwards. If any of these required certifications is not completed and submitted as requested, the Standing Offer Authority will so inform the Offeror and provide the Offeror with a time frame within which to meet the requirement. Failure to comply with the request of the Standing Offer Authority and meet the requirement within that time period will render the offer non-responsive.

2.1 Canadian General Standards Board (CGSB) Certification and Qualification Program (FOR REMANUFACTURED IMAGING CONSUMABLES OFFEROR ONLY)

Offerors must complete the benchmark testing on the requested four toner cartridges and provide the CGSB qualification number with their offer.

CGSB offers a qualification program for Remanufactured Toner Cartridges, based on the National Standard CAN/CGSB-53-148-2011. Manufacturers who wish to participate in the Listing Program may obtain a program Manual by contacting the person identified below.

In order to allow CGSB sufficient time to test and qualify the applicable re-manufactured toner cartridges, new applications for qualification for the RFSO will not be accepted, if submitted within fifteen (15) calendar days before RFSO closing date.

2.2 ISO 9001 Certification - Quality Management Standards (FOR OEM AND COMPATIBLE IMAGING CONSUMABLES OFFERORS ONLY)

For all imaging OEM and Compatible consumables offered, the Original Equipment Manufacturer(s), whether this is the Offeror or a third party, must be registered under ISO 9001 by an accredited registrar under the ISO 9001 Program for the manufacturing facility where each imaging consumable being offered is manufactured. The Offeror must identify the facility location by providing the complete address where each proposed imaging consumable is manufactured/assembled. The scope of the registration must also be specified and valid.

2.3 ISO 14001 Certification - Environmental Management Standards (FOR OEM AND COMPATIBLE IMAGING CONSUMABLES OFFEROR ONLY)

For all OEM and Compatible imaging consumables offered, the Original Equipment Manufacturer(s), whether this is the Offeror or a third party, must be registered under the ISO 14001 Program by an accredited registrar under the ISO 14001 Program for the manufacturing facility where each consumables being offered is manufactured. The Offeror must identify the facility location by providing the complete address where each proposed consumable is manufactured/assembled. The scope of the registration must also be specified.

2.4 Price Protection - Most Favoured Customer

- (a). Items (b) to (h) apply to non-evaluated and non-NMSO products only.
- (b). To the best of the Offeror's knowledge, the prices it is charging to Canada under any resulting Call-up are not higher than the lowest prices/rates that it has charged any other customer (including other Government of Canada entities) for a similar quality and quantity of goods and services in the year before the Call-up was awarded.
- (c). The Offeror also agrees that, if after the date of any resulting Call-up(s) it reduces the prices it charges to other customers for a similar quality and quantity of goods and services, it will reduce the prices for all remaining deliveries under any existing Call-up(s) with notice to the Standing Offer Authority).
- (d). At any time during the 6 years after making the final payment under any resulting Call-up or until all claims and disputes then outstanding are settled, whichever is later, Canada has the right to audit the Offeror's records to verify that it is receiving (or has received) these prices. Canada will give at least 2 weeks of notice before the audit.
- (e). During this audit, the Offeror must produce invoices and contracts for similar quality or quantity of goods or services sold to other customers from one year before the Call-up was awarded until the end of the RMSO Period. If the Offeror is required by law or by contract to keep another customer's information confidential, the Offeror may black out any information on the invoices or contracts that could reasonably reveal the identity of the customer (such as the customer's name and address), as long as the Offeror provides, together with the invoices and contracts, a certification from its Senior Financial Officer describing the profile of the customer (e.g. whether it is a public sector or private sector customer and the customer's size and service locations).
- (f). In determining whether the goods and services sold to another customer were of similar quality, the terms and conditions of the contract under which those goods and services were delivered will be considered, if those terms and conditions are reasonably likely to have had a material effect on pricing.
- (g). If Canada's audit reveals that the Offeror charged lower prices for a similar quality and quantity of goods and services under any contract where deliveries were made in the year before the Call-up was awarded, or that the Offeror delivered additional goods or services under the Contract after reducing its prices for other customers but without reducing the prices under resulting Call-up(s), then the Offeror must pay to Canada the difference between the amount

charged to Canada and the amount charged to the other customer, up to a maximum of 25% of the value of the Call-up.

- (h) Canada acknowledges that this commitment does not extend to prices charged by any affiliates of the Offeror.

2.5.1 SACC Manual clause A3050T(2010-01-11) Canadian Content Definition

Remanufactured products may only be used providing they come from suppliers who are current program participants on the CGSB Qualification Program for Remanufactured Toner Cartridges and have had their products qualified based on the performance requirements specified in the CGSB

M2 Exclusion of Cartridges Processed by Laser Cutting

Laser-cutting, due to its inherent reduction in the structural integrity of the casings, will tend to reduce the number of times that the casing can be further re-used for the production of remanufactured toner cartridges, and may lead to increased incidence of toner leakage and subsequent damage to government equipment. Cartridges whose casings have been subjected to laser cutting as part of the remanufactured process are explicitly excluded from this requirement and from any resulting Contract.

B2. Financial Evaluation

Offerors must provide a firm unit price, for each of the proposed consumables, for the entire period of the standing offer in Canadian dollars, Goods and Services (GST) or Harmonized Sales Tax (HST) excluded, all items offered.

The pricing for OEM, Compatible and Remanufactured imaging consumables will be evaluated independently.

General Financial Offer Template

Attachment 1, Product and Pricing Spreadsheet is included in a separate attachment in Excel format. Offerors are to fill in the blank columns as instructed and are to make no other modifications to the format when submitting their Offerors. Submission of modified tables in the Offer may render an Offer non-responsive.

The Financial Offer Template sheets are labelled as: All Regions, Atlantic Region, NCR Region, Ontario Region, Pacific Region, Quebec Region and Western Region.

If quoting on more than one region, but not on all regions, the Offeror must submit a separate spreadsheet for each region being quoted.

The Standing Offer document will clearly indicate the regions and individual Financial Offer Template (if applicable).

For OEM imaging consumables:

Offeror's average Cost Per Page (CPP) for each type of consumable will be added together (average Cost Per Page monochrome + average Cost Per Page colour + average Cost Per Page others). Offeror's yield must meet or exceed OEM yield.

Standing Offers will be issued to Offeror's whose total average Cost Per Page from each type (monochrome, colour or others) falls within 50% (round down to the nearest number) of the lowest total average Cost Per Page Offeror submitted for that region.

For Compatible imaging consumables:

Offeror's average Cost Per Page (CPP) for each type of consumable will be added together (average Cost Per Page monochrome + average Cost Per Page colour + average Cost Per Page others). Offeror's yield must meet or exceed OEM yield.

Standing Offers will be issued to Offeror's whose total average Cost Per Page from each type (monochrome, colour or others) falls within 50% (round down to the nearest number) of the lowest total average Cost Per Page Offeror submitted for that region.
