Request for Proposal Amendment No 004 is issued for the purpose of providing answers to questions submitted to the Contracting Authority.

BIDDER QUESTIONS:**Question 13:**

Reference Technical Specification item 7.1.4. During a vessel visit, ship's crew informed us that there are no instruments for engine control currently in the wheel houses and that all monitoring and control is contained in the engine room. Is the intension to add controls in the wheelhouses?

Answer 13:

Section 7.1.4 Control & Monitoring Requirements, of the Technical specification is clarified to state:

It is not the intention to add any controls at the 2 wheelhouses other than what is necessary to meet the requirements of Lloyd's and TC. The requirement for engine HMI panels to interface and integrate with the existing IACMS is not mandatory; suppliers may propose independent engines' monitoring and control systems, as long as Lloyd's and TC requirements are met.
