This RFP Amendment No. 001 is raised to:

1. Amend the Technical Data Package (TDP);
 2. Update the Questions and Answers Set - to address new questions (Q9-Q15) received from bidders; and
 3. Revise Appendix A1 to Annex "A" Deliverable Items document.
-

1. TDP Parts Addendum

The TDP is hereby updated to include Amendment #1 to Table A2-2 to Appendix 2 to Annex "A". This amendment #1 consists of a "TDP Parts Addendum" listing accepted alternate component parts for this requirement, and is contained on a CD, which will be distributed to bidders upon release of this RFP Amendment no. 002. *Distribution method: same as was used for the original TDP.*

2. UPDATE to Bidders' Questions and Answers Set (New questions 9-15)

Q.9: Could we get a copy of the bidders' list for this solicitation?

A.9: No. PWGSC does not divulge the identity of bidders.

Q.10: Please provide clarification on two part numbers that are featured on 2 separate drawings that may be incorrect. These are:

Dwg 0976486-*, P/N: 202C021-50-0

Dwg 0976532-*, P/N: 202C032-50-0

A.10: Please note the following P/N corrections:

(1) for Drawing 0976486-* (line items 019,020,and021), Part number should read: 202C621-50-0

(2) for Drawing 0976532-* (line item 077), Part number should read: 202C632-50-0

Q.11: Regarding one of your mandatory requirements identified in Annex F, Para 1.2.1b, Capability: there is a requirement to demonstrate that the bidder has produced 1 product at a rate of at least 200 units per month over a 3 month period during the last year and 2 other products within the last 5 years.

Can the bidder demonstrate this using a family of products that are similar in technology to the ELAN-333 Cable Assembly or does it have to be 1 part number of product?

In looking at the proposed delivery schedule, we don't see a requirement to deliver 200 of any one cable assembly in a one month period. Most part numbers shown, have a qty 30 to 35 a month delivery requirement.

A.11: The use of a family of products that are similar in technology to the ELAN-333 Cable Assembly is acceptable for demonstration purposes of the mandatory requirement in Annex F, para 1.2.1b, capability. This requirement was generated in order to begin to emulate the build requirement that consists of approx 23 different cable types with an overall quantity build of approx 1400 cables per month.

Q.12: Request for clarification of quantity requirement for the following items:**Line item 001, Cable Assy, Antenna**

The Table A1-1 as well as the tables in Annex B call up a total quantity of 400 (without options), but if you total the quantities in the Delivery Schedule shown in Table A1-1, the total ends up as quantity 396. Please advise if the total of 400 is correct, or the delivery schedule is incorrect.

Line item 015, Cable Assy, ELAN-301/LS, branched P/N: 0976321-1

The Table A1-1 as well as the tables in Annex B call up a total quantity of 320 (without options), but if you total the quantities in the Delivery Schedule shown in Table A1-1, the total ends up as quantity 400. Please advise if the total of 320 is correct, or the delivery schedule is incorrect.

A.12: Please refer to Revision 001 of Appendix A1 to Annex "A". Line items 001 and 015 of Table A1-1 have been updated. The total quantities for each line item remain the same. Updates to the delivery schedule/quantities for line items 001 and 015 have been incorporated.

Q.13: Cables 0976322-27,-28,-29,-30,-31,-32,-33 have no lengths indicated on the 0976322 top level drawing. Can PWGSC please provide the cable length for each of these dash numbers?

A.13: See CD containing TDP Parts Addendum (Label: "Amendment #1 to Table A2-2 to Appendix 2 to Annex A for W8476-134421/A").

Due to the requirements of the Controlled Goods Program, "Amendment #1" is contained on a CD which will be provided in the same manner as the original TDP.

Once a Bidder has met the requirements to be provided the original CD, no further action is required by the Bidder to receive the TDP Parts Addendum CD "Amendment #1".

Q.14: For the following GDC part numbers, can PWGSC provide the matching Original Equipment Manufacturers (OEM) part numbers?

707078R-001 (Cage Code 3AF83) Used on 0477246 and 0477248

904244-001 (Cage Code 05257) Used on 0976486

914210-001 (Cage Code 05257) Used on 9375922 and 9375923

914210-005 (Cage Code 05257) Used on 9375914.

A.14: See answer A.13 above.

Q.15: On drawing 0876502, can PWGSC please clarify the quantities required for the sleeving, tubing and cable? The drawing does not indicate what the unit of measure should be.

A.15: See answer A.13 above.

3. APPENDIX A1 to ANNEX "A" - Deliverables List

(changes to line items 001 and 015; quantity adjustment)
